CHRISTIAN SCIENCE IN CANADA

The Church of Christ, Scientist, or Christian Science denomination in Canada, includes 75 churches: 7 in Alberta, 20 in British Columbia, 6 in Manitoba, 1 in New Brunswick, 1 in Nova Scotia, 33 in Ontario, 3 in the Province of Quebec, and 4 in Saskatchewan. These regularly organized congregations are in the larger cities and towns, but there are many other Christian Scientists in Canada residing where Churches have not yet been organized. As a whole, the Christian Science denomination in Canada is not separately organized. Each church is a branch of The First Church of Christ, Scientist, in Boston, Massachusetts, The Mother Church of the Christian Science denomination, but each church has its own self-government. In each province, there is a Christian Science Committee on Publication, while in the larger cities and towns there are public practitioners of Christian Science, the number of such practitioners in Canada being at present about 250. The Christian Science denomination has no ordained clergy, but each church has two Readers who are elected for stated terms from among the members, and who conduct its services. Each church also maintains a public Reading Room, where the authorized literature of the denomination may be found. In 1938 the first college organization in Canada was established and is known as "Christian Science Organization" at the University of Toronto. The total number of adherents in Canada, per Census 1931, was 18,418. Communications should be addressed to Arthur W. Eckman, Manager, Christian Science Committee on Publication, 107 Falmouth St., Boston, Mass.

THE SYNAGOGUE IN CANADA

Though the Jews of Canada number more than 150,000, there is no federation of synagogues in Canada. Each synagogue is autonomous, is responsible to no superiors, affiliated with no hierarchy. Any group of Jews may form a synagogue, which does not necessarily require the services of a rabbi, any individual being eligible to lead in the recital of prayers.

There are three tendencies evident in Canadian Judaism—orthodox, conservative and reform. The orthodox tendency parallels the fundamentalist movement in Christianity; the reform tendency is modernism in Judaism; the conservative tendency is the middle movement.

The Holy Blossom Synagogue of Toronto, the Temple Emanu-El of Montreal, and the Anshe Sholom Synagogue of Hamilton are affiliated with the Union of American Hebrew Congregations, the federation of reform synagogues. The Shaar Hashomayim Synagogue of Montreal, the Goel Tzedec of Toronto and Beth Israel of Vancouver are affiliated with the United Synagogue of America (conservative). Most of the Canadian congregations are unaffiliated with any parent organization. These parent organizations have no authority over their constituent members.

Some external innovations of the reform group are worshipping without hats, the use of mixed choir and organ, the institution of a Sunday morning service (only at Holy Blossom Synagogue, Toronto) in addition to the Saturday morning service, the reading of prayers in English as well as in Hebrew, the addition of a sermon in English, and the sitting of men and women together. English prayers and sermons are also given in conservative synagogues. Most synagogues have religious schools. Some of these schools have sessions on Saturday and Sunday, and others on week days after public school hours. Among the leading synagogues of Canada are:

TORONTO, ONT.—Holy Blossom Synagogue (reform) Bathurst St. at Ava Rd., Maurice N. Eisendrath, M.A., rabbi.

INTERNATIONAL LABOUR ORGANIZATION

The International Labour Organization, which was set up under the Peace Treaties concluded after the 1914-1918 war for the purpose of promoting social justice, is an association of nations. Its organs are the International Labour Conference, which normally meets annually and is composed of delegations representing the Governments, employers and workers of the member countries; the International Labour Office; and the Governing Body of the International Labour Office which is also composed of representatives of Governments and of employers' and workers' organizations. The seat of the International Labour Office is Geneva, Switzerland; but when, in 1940, the course of the war made communications difficult and threatened to isolate the I.L.O. in the midst of a Nazi-dominated Europe, the then Director, the Hon. John G. Winant, now United States Ambassador to Great Britain, decided to establish a working centre across the Atlantic. This centre was established in Montreal at the invitation of McGill University and with the cordial agreement of the Canadian Government. The diplomatic status of the I.L.O. in Canada is defined by Order-in-Council P.C. 6283 of 14 August, 1941. Branch offices are maintained in Chungking, London, New Delhi and Washington, and the Office has correspondents or special representatives in seventeen further countries of America, Asia and Europe. The publications issued by the International Labour Office include: International Labour Review (monthly), Industrial Safety Survey (quarterly), Legislative Series (quarterly), I.L.O. Year Book, Year Book of Labour Statistics, and special studies and pamphlets dealing with wartime and reconstruction problems which are issued from time to time. CANADA AND THE COST OF WAR

In 1942, it is expected Canadians will spend over $3,000,000,000 on war—on the Army, Navy, Air Force and on shipments of munitions, food and materials to Britain. The total of these expenditures is roughly twice the total cost of the First Great War from 1914 to 1920, including the cost of demobilization.

Adding the expenditure for non-war purposes Canada will spend not less than $3,900,000,000 this year, which is equal to nearly eight years of peacetime spending. It is expected that with greatly increased taxation and compulsory savings, there will be a deficiency of $1,755,000,000. It will be necessary to raise the largest part of this amount by war loans and war savings certificates.

To obtain the highest revenue in Canada's history, taxation has been increased sharply on incomes and many forms of goods and services. Entirely new taxes have been imposed. Income taxes and national defence taxes are combined with the compulsory savings deductions and taken from salaries and wages, or collected by means of compulsory instalments.

RATES OF DUTY

(SEC. 10) There shall be assessed, levied and paid to the Receiver General of Canada, upon or in respect of each succession mentioned and described in section 6 (Duties on Successions) of this Act an initial duty at the rate set forth under the heading "Initial rates dependent on aggregate net value" in the First Schedule to this Act which corresponds to the aggregate net value, in the said Schedule, and the duty so levied shall be payable by each successor in respect of his succession: Provided that there shall be no duty levied under this section where the aggregate net value exceeds $5,000. but does not exceed $25,000.

ADDITIONAL RATES

(SEC. 11) In addition to the duty imposed by section 10 of this Act, there shall be assessed, levied and paid upon or in respect of each succession mentioned and described in section 6 of this Act a duty at the rate set forth in the First Schedule to this Act which corresponds to the dutiable value in the said Schedule, as follows:—

(*a*) under the heading Class A of the said schedule where the dutiable value exceeds $5,000. and where the successor is the widow or child of the deceased;

(*b*) under the heading Class B of the said schedule where the dutiable value exceeds $1,000. and where the successor is the grandfather, grandmother, father, mother, husband, son-in-law or daughter-in-law of the deceased or a child of the deceased 18 years of age or over at the date of the death of the deceased and not dependent, at that date, upon the deceased for support on account of mental or physical infirmity;

(*c*) under the heading Class C of the said Schedule where the dutiable value exceeds $1,000. and where the successor is a lineal ancestor (except a grandfather, grandmother, father or mother), a brother or sister of the deceased or any descendant of a brother or sister, or a brother or sister of the father or mother of the deceased or any descendant of such brother or sister;

(*d*) under the heading Class D of the said Schedule where the dutiable value exceeds $1,000. and where the successor is any person in any other degree of consanguinity to the deceased than as mentioned in paragraphs (*a*), (*b*) and (*c*) of this section, or is a stranger in blood to the deceased.

EXAMPLE

An example of the way the two classes of rates i.e., the "initial rates" and the "additional rates" apply was given to Parliament by the Minister of Finance when submitting the Bill to the House in 1941. He took the case of an estate of $100,000. of dutiable value descending to two adult children. Each child's bequest is $50,000. The "Initial Rate" (dependent on aggregate net value) for $100,000 is 2½%. The "Additional Rate" (dependent on dutiable value of the individual benefit) for a bequest of $50,000. in Class B (the Class for Adult Children) is 4%. The total of 2½% and 4% is 6½%. A total rate of 6½% is thus the duty applicable to the dutiable value of each bequest of $50,000.

SUCCESSION DUTIES, ONTARIO

A resumé of the Ontario Act is here given, and, following that and on the preceding page, tables showing certain rates of duty applicable in the other Provinces, together with certain surtaxes and exemptions, in the case of beneficiaries related in the direct line or by marriage, the exact relationship being shown at the head of each column.

In respect of provinces other than Ontario, in addition to the rates shown, there are higher rates applicable where beneficiaries are less directly connected, and in some cases further duties or surtaxes are imposed where individual bequests or the value of estates exceed certain sums.

The information hereunder, while including the latest revisions, is only partial, is not interpretative, and legal advice should be sought in specific cases.

(*c*) Any mark including words and/or numerals in combination with other features shall be deemed to be a design mark having the features described in the application therefor but without any meaning being attributed to the words or numerals, which shall, however, also be deemed to constitute a word mark if and so far as they would at the date of registration have been registrable independently of any defined form or appearance and without being combined with any other feature;

(*d*) Any other mark shall be deemed to be a design mark having the features described in the application therefor.

REGISTRABLE TRADE MARKS

26. (1) Subject as otherwise provided in this Act, a word mark shall be registrable if it

(*a*) does not contain more than thirty letters and/or numerals divided into not more than four groups;

(*b*) is not the name of a person, firm or corporation;

(*c*) is not, to an English or French speaking person, clearly descriptive or misdescriptive of the character or quality of the wares in connection with which it is proposed to be used, or of the

conditions of, or the persons employed in, their production, or of their place of origin;

(*d*) would not if sounded be so descriptive or misdescriptive to an English or French speaking person;

(*e*) is not the name in any language of any of the wares in connection with which it is to be used;

(*f*) is not similar to, or to a possible translation into English or French of, some other word mark already registered for use in connection with similar wares; and

(*g*) is not such as to suggest the name in French or English of some feature of a design mark already registered for use in connection with similar wares which is so characteristic of the design mark that its name would not be unlikely to be used to define or describe the wares in connection with which the design mark is used.

(2) An application for the registration of a word mark otherwise registrable shall not be refused on the ground that the mark consists of or includes a series of letters or numerals which also constitute or form part of the name of the firm or corporation by which the application for registration is made.

27. Subject as hereinafter provided, any design mark may be registered if it

(*a*) is not identical with or similar to any design mark already registered for use in connection with similar wares;

(*b*) is not such as to be likely to mislead dealers in and/or users of the wares in connection with which it is proposed to be used as to the character or quality of such wares or as to the conditions of or the persons employed in their production or as to their place of origin;

(*c*) is not such that, by reason of one of its principal characteristics being a representation of something which obviously suggests a word mark already registered for use in connection with similar wares, it is likely that such word mark, or some word resembling the same, would be used to define or describe the wares in connection with which the design mark is used.

APPLICATION FOR REGISTRATION

30.(1) Any person who desires to register a trade mark under this Act otherwise than pursuant to a judgment, order or declaration of the Exchequer Court of Canada shall make an application in writing to the Registrar in duplicate containing

(*a*) a statement of the date from which the applicant or named predecessors in title has or have used the mark for the purposes defined in the application and of the countries in which the mark has been principally used since the said date;

(*b*) a statement that the applicant considers that, having regard to the provisions of this Act, he was and is entitled to adopt and use the mark in Canada in connection with the wares described; and

(*c*) the address of the applicant's principal office or place of business in Canada, if any, and if the applicant has no office or place of business in Canada, the address of his principal office or place of business abroad and the name and address in Canada of some person, firm or corporation to whom any notice in respect of the registration may be sent, and upon whom service of any proceedings in respect of the registration may be made with the same effect as if they had been served upon the applicant himself.

(2) If the mark is intended to indicate that the wares in association with which it is used have been manufactured, sold, leased or hired by the owner thereof the application shall so indicate and shall contain

(*a*) a concise description, expressed in such terms as are ordinarily and commercially used by the applicant, of the wares with which the applicant is commercially concerned;

(*b*) a concise description in like terms of the specific wares in association with which the applicant has used the mark.

(3) If the mark is intended to indicate that the wares in association with which it is used are of a defined standard, or have been produced under defined working conditions, by a defined class of persons or in a defined area, the application shall so indicate and shall contain:

(*a*) a statement that the applicant is not engaged in the manufacture, sale, leasing or hiring of wares similar to any wares in association with which the mark is used;

(*b*) an exact definition of what the use of the mark in association with wares is intended to indicate in respect of the standard which such wares have attained, or of the working conditions under which or the class of persons by whom they have been produced or of the area in which they have originated.

31. (1) Every application for the registration of a trade mark shall state whether the applicant requests the registration of the mark as a word mark or as a design mark.

(2) If he requests the registration of the mark as a word mark, the letters and/or numerals constituting the mark shall be set out in the application in their proper grouping.

(3) If he requests the registration of the mark as a design mark, the application shall contain such a concise description of what the applicant considers to be its principal features as to enable the Registrar properly to index the mark; any words or figures shall be referred to, if at all, only as reading matter, and shall be described as being in a specified relation to the other features of the design and/or of a described general appearance, as the case may require, and the applicant shall furnish five accurate and complete representations of the design prepared on or attached to paper of the prescribed size.

AMENDMENT OF RECORD OF REGISTRATION

42. If the person who at any time appears from the record of the registration of a trade mark to be the owner of such mark represents to the Registrar that any amendment is required to any statement theretofore recorded relating to the wares in which the owner of the mark is commercially concerned, or to the use of the mark, the address of the owner, or the person upon whom service may be made of proceedings in respect of the registration, the record shall, subject as hereinafter provided, be amended or added to accordingly.

NOTICES OF PROPOSED AMENDMENT OR CANCELLATION AFTER NOTICE

49.(1) The Registrar may at any time, and shall at the request of any person who pays the prescribed fee, notify the person appearing from the register to be the owner of any trade mark that he considers, or that it has been represented to him that such trade mark has ceased to be used as a trade mark in Canada, or for any other specific reason to be set out in the notice, the registration of such mark should be cancelled or that an entry relating thereto should be struck out, corrected or amplified, and request him to advise whether he has any, and if any, what objection to the amendment of the register accordingly.

(2) If the person to whom such notice has been addressed agrees to the proposed amendment of the register in whole or in part, such amendment shall forthwith be made by the Registrar in accordance with such agreement.

(3) If, within three months from the despatch of such a notice as aforesaid, no reply to it has been received from the person to whom it was addressed, the Registrar shall send such person a second notice enclosing a copy of the first and stating that if, within a reasonable time to be fixed by the notice, no objection to the proposed amendment of the register is received, such amendment will be made, and, unless an objection is received within the time limited, the Registrar shall amend the register accordingly.

(4) Except as in the next following section provided, the Registrar shall not cause any amendment to be made in the register to which the person appearing therefrom to be the owner of the mark makes any objection.

RENEWAL OF REGISTRATION OF TRADE MARK

50. (1) If a mark has been on the register without renewal for the period hereinafter specified less four months, the Registrar shall take the action prescribed

under the last preceding section on the ground that the person appearing from the register to be the owner thereof has ceased to use the same.

(2) In any such case the registration of the mark shall be cancelled notwithstanding objection on the part of the owner thereof, unless the prescribed fee for the renewal of the registration is paid within the time within which an objection to the cancellation of the registration might be made.

(3) The period specified in subsection one of this section shall be as follows:—

(*a*) In the case of any specific trade mark on the register maintained under the *Trade Mark and Design Act* at the date of the coming into force of this Act, twenty-five years from the date of the original registration or of the last renewal thereof;

(*b*) In the case of any general trade mark or union label on the register maintained under the *Trade Mark and Design Act* at the date of the coming into force of this Act, twenty-five years from the said date; and

(*c*) In the case of any trade mark registered under this Act, fifteen years from the date of the registration or of the last renewal thereof.

THE PATENTS, DESIGNS, COPYRIGHTS AND TRADE MARKS (EMERGENCY) ORDER, 1939

Made under and by virtue of the War Measures Act, Chapter 206. Revised Statutes of Canada 1927, with the view of regulating dealings relating to patents, designs, copyrights and trade marks. Effective on September 2nd, 1939.

The following is a brief synopsis of the more important provisions of the Order.

Section 1—Interpretation.

EXISTING LICENSES

Section 2—(1) Notwithstanding the provisions of the Regulations Respecting Trading with the Enemy, 1939, the Defence of Canada Regulations, 1939, or any rule of law relating to intercourse or dealings with or for the benefit of enemies, a license under a patent or for the application of a registered design or granting an interest in a copyright being a license which would have been in force in favour of a person resident in the Dominion of Canada if neither the proprietor of the patent or registered design, or the owner of the copyright, as the case may be, nor any person otherwise interested therein, had been an enemy, shall not be invalid by reason of the fact that the proprietor or owner or any person otherwise interested therein is an enemy, nor shall any contract, in so far as it relates to any such license as aforesaid, be invalid by reason of the fact that any party to the contract is an enemy:

Provided that nothing in this section shall—

(*a*) render valid a grant or an assignment of any such license as aforesaid, or any contract relating to any such license, if that grant, assignment or contract is made during the existence of a state of war and is unlawful by virtue of any provision of the said Regulations Respecting Trading With the Enemy, 1939, the Defence of Canada Regulations, 1939, or of any such rule as aforesaid, or

(*b*) Authorize the performance of any contract relating to any such license as aforesaid in a manner inconsistent with any of the provisions of the Regulations Respecting Trading With the Enemy, 1939, the Defence of Canada Regulations, 1939 or of any other enactment relating to intercourse or dealings with or for the benefit of enemies, or to the property, rights, or capacity of enemies, or in a manner inconsistent with any rule of law relating to any of those matters.

(2) In the case of any such license as aforesaid, where an enemy or an enemy subject is, or has at any time since the beginning of the second day of September, nineteen hundred and thirty-nine, been, whether alone or jointly with any other person, the proprietor of the patent or registered design, or the owner of the copyright, as the case may be, or entitled to any other interest therein (not being merely the interest of a licensee), the Commissioner may, on the application of the licensee or any other person interested in the patent, registered design or copyright, by order—

(*a*) revoke the license;

(*b*) revoke or vary any conditions subject to which the license has effect; or

(*c*) revoke or vary any of the provisions of a contract relating to the license in so far as they relate thereto.

An order for a variation made under this subsection may be revoked or varied by a subsequent order made thereunder.

Section 3—empowers the Commissioner of Patents to grant licenses for the use of enemy-owned patents, registered designs or copyrights.

Sub-Section (1) reads

Where—

(*a*) an enemy or an enemy subject is, or has at any time since the beginning of the second day of September nineteen hundred and thirty-nine been, whether alone or jointly with any other person, the proprietor of a patent or registered design or the owner of a copyright, or entitled to any other interest in a patent, registered design or copyright (not being merely the interest of a licensee), and

(*b*) the Commissioner is satisfied that it is in the interest of all or any of His Majesty's subjects that the rights conferred by the patent should be exercised, or that the design should be applied or the copyright exercised, as the case may be, and that a person who is not an enemy or an enemy subject desires to exercise the said rights or apply the said design or exercise the said copyright and is in a position so to do, the Commissioner may, on the application of that person, make an order granting to him a license under the patent or for the application of the design or granting an interest in the copyright as the case may be, either for the whole of the residue of the term of the patent, registration or copyright, or for such less period as the Commissioner thinks fit.

Section 4—Defines the power of the Commissioner of Patents or Registrar of Copyrights to refuse to register assignments unless assignment in good faith and not for the purpose of evading any of the provisions of the present Orders and Regulations.

FAILURE TO MANUFACTURE

Section 5—In any case in which through circumstances arising from the present state of war the Commissioner may deem it expedient, he may order that during the continuance of the war, and for six months thereafter, failure to construct or manufacture in Canada any patented invention shall not constitute an abuse of the exclusive right under the patent granted therefor within the meaning of Section 65 of The Patent Act, 1935.

Section 6—Defines the Registrar's power to suspend trade mark rights of an enemy or enemy subject.

Sub-section (2) reads:

On the application of any person who proposes to deal in the course of trade in the Dominion of Canada with an article or substance which is or is intended to be the same as, or equivalent to or a substitute for, the article or substance in respect of which the trade mark is registered, the Registrar may order that the right to the use of the trade mark given by the registration thereof shall be suspended—

(*a*) so far as regards use thereof by the applicant and any such use thereof by any other person in relation to goods connected in the course of trade with the applicant as would not be an infringement of the said right if the applicant were the proprietor of the trade mark.

(*b*) to such extent and for such period as the Registrar may consider necessary for enabling the applicant to render well-known and established some description of, or means of reference to, the article or substance with which he proposes to deal in the course of trade, being a description or means of reference which does not involve the use of the trade mark.

EFFECT OF WAR ON GRANT OF PATENTS

Section 7—(1) Nothwithstanding the provisions of the Regulations Respecting Trading With the Enemy, 1939, the Defence of Canada Regulations, 1939, or any rule of law relating to intercourse or dealings with or for the benefit of enemies, it shall be lawful, subject to the provisions of this Order in Council—

(*a*) for a patent to be granted under The Patent Act, 1935;

(*b*) for a design to be registered under the Trade Mark and Design Act, Chap. 201, R.S.C. (1927); or

(*c*) for a trade mark to be registered under the Unfair Competition Act, 1932; or

(*d*) for a Copyright to be registered under the Copyright Act, Chap. 32, R.S.C. 1927;

on the application of an enemy:

Provided that, where such a grant or registration as aforesaid is effected on the application of an enemy,—

(i) the grantee or person registered shall not be entitled to require the delivery of the patent or the grant or issue of the certificate of registration, as the case may be; and

(ii) the patent, or the rights conferred by the registration, as the case may be, shall be subject to any relevant provisions of any enactment for the time being in force relating to the property of an enemy.

(2) The provisions of Section 27 (1) of The Patent Act, 1935, shall not cease to have effect for the purposes thereof by reason that His Majesty is at war.

(3) The Commissioner or the Registrar of Trade Marks as the case may be, may, in any case in which in his opinion it is desirable in the public interest so to do, refuse to take, or suspend the taking of, any proceedings on or in relation to an application of an enemy for a patent or for the registration of a Copyright of a design or of a trade mark.

EFFECT OF WAR ON INTERNATIONAL COPYRIGHT

Section 8—(1) Notwithstanding the provisions of the Regulations Respecting Trading With the Enemy, 1939, the Defence of Canada Regulations, 1939, or any rule or law relating to intercourse or dealings with or for the benefit of enemies the provisions of Section 4 of the Copyright Act, Chap. 32, R.S.C. 1927, shall be deemed for the purposes of that Act to continue in force notwithstanding the state of war subject to any alteration or variation thereof under that Act.

(2) Notwithstanding the provisions of the Regulations Respecting Trading With the Enemy, 1939, the Defence of Canada Regulations, 1939, or any rule of law relating to intercourse or dealings with or for the benefit of enemies, any copyright that would have subsisted under Section 4 of the Copyright Act, Chap. 32, R.S.C. 1927, as aforesaid if the owner of the copyright had not been an enemy shall so subsist where an enemy is, whether alone or jointly with any other person the owner thereof:

Provided that, where an enemy, whether alone or jointly with any other person, is the owner of copyright subsisting under the Copyright Act, Chap. 32, R.S.C. 1927, the provisions of the Regulations Respecting Trading With the Enemy, 1939, the Defence of Canada Regulations, 1939, and of any other enactment relating to intercourse or dealings with or for the benefit of enemies, or to the property, rights, or capacity of enemies, and any rule of law relating to any of those matters, shall, as respects that enemy, have effect in relation to the copyright so subsisting.

POWER TO EXTEND TIME LIMITS

Section 9—(1) The Commissioner or the Registrar of Trade Marks as the case may be, may, subject to such conditions, if any, as he thinks fit to impose, extend the time limited by or under The Patent Act, 1935, The Trade Mark and Design Act, Chap. 201, R.S.C. 1927, the Unfair Competition Act, 1932, or these Regulations for doing any act, where he is satisfied—

(*a*) that the doing of the act within the time so limited was prevented by a person's being on active service or by any other circumstances arising from the existence of a state of war which, in the opinion of the Commissioner, justify an extension of the time so limited or

(*b*) that, by reason of circumstances arising from the existence of a state of war, the doing of the act within the time so limited would have been or would be injurious to the rights or interests of the person by or on whose behalf the act is or was to be done or to the public interest.

(3) The powers conferred by this section may be exercised notwithstanding that the exercise thereof benefits, whether directly or indirectly, an enemy or an enemy subject.

Section 10—Gives the Commission and Registrar authority to require evidence as to nationality and citizenship.

Section 11—Before deciding as to the making of any order under this Order in Council the Commissioner, or the Registrar as the case may be, shall, unless having regard to the circumstances he considers it inexpedient or impossible so to do, give to any person who appears to the Commissioner or the Registrar as aforesaid to be interested such opportunity of being heard as appears to him to be just.

Section 12—Concerns rules and fees.

Section (3) was revoked by order-in-council 4401 May 26, 1942.

(4) The payment may be made on behalf of an enemy of any fees payable in application for or renewal of the grant of Patents, or on application for the registration of Copyrights, Designs or Trade Marks or the renewal of such registration in any country not being enemy territory and the payment

may be made on behalf of an enemy to persons not being enemies of their charges and expenses, in relation to the matters aforesaid, and the receipt may be accepted of payments from an enemy in relation to the matters aforesaid.

Provided always that any payment on behalf of an enemy under this paragraph, unless it is made by a person who has an interest in or under the patent, copyright, design or trade mark in question, may be made by the person making the same only out of moneys:—

(*a*) remitted by or on behalf of such enemy, or

(*b*) held for or on account of such enemy, and not by way of gift or by way of advancement or loan to or on account of such enemy.

A fee of $10.00 is prescribed for each application or notice of opposition to an application.

COPYRIGHT IN CANADA

By A. H. O'BRIEN, Barrister-at-Law, Counsel to the Canadian Authors' Association.

Note. The following summary of the law of Copyright is to some extent affected by The Patents, Designs, Copyrights and Trade Marks (Emergency) Order respecting copyrights, patents, designs, and trade-marks. It will be advisable, therefore, to consult a solicitor upon any point in question. A summary of this Order appears on page 430.

Legislation

Copyright in Canada is governed by The Copyright Act, in the Revised Statutes of Canada, 1927, as amended in 1931, 1935, 1936 and 1938. Canada's adherence to the Revised Convention of Berne became effective on January 1st, 1924. The Canadian legislation of 1924 closely resembles the British Copyright Act of 1911.

In 1931 Canada gave its adherence to the Convention of Rome, 1928.

All copyright legislation of the United Kingdom —in so far as it affected Canada—was repealed by a Canadian statute in 1921.

The following is a summary of the principal provisions of the Act, but persons interested can obtain a copy of the Act on application to the Commissioner of Patents, Copyright Office, Ottawa.

"Copyright" Defined

Copyright is the sole right to produce, reproduce or publish an original literary, dramatic, musical, or artistic work, or any substantial part thereof, in any material form whatsoever, or to present such work by cinematograph, or communicate such work by radio; or in the case of a lecture to deliver the work or any substantial part thereof in public; if the work is unpublished, to publish the work or any substantial part thereof; and shall include the sole right,

(*a*) to produce, reproduce, perform or publish any translation of the work;

(*b*) in the case of a dramatic work, to convert it into a novel or other non-dramatic work;

(*c*) in the case of a novel or other non-dramatic work, or of any artistic work, to convert it into a dramatic work, by way of performance in public or otherwise;

(*d*) in the case of a literary, dramatic, or musical work, to make any record, perforated roll, cinematograph film, or other contrivance by means of which the work may be mechanically performed or delivered;

provided that the author has given such work an original character; and provided also that if such original character is absent the cinematographic production shall be protected as a photograph.

Commencement of Copyright

Copyright subsists upon production of the work. The author of the work is the first owner of the copyright. No formalities are required. Registration is not necessary, and is optional with the author. It is, however, prima facie evidence of copyright.

Extent of Copyright

Copyright subsists in every published or unpublished original literary, dramatic, musical and artistic work, if the author was, at the date of the making of the work, a British subject or resident within His Majesty's Dominions, or a citizen or subject of a foreign country which has adhered to the Berne Convention; and if, in the case of a published work, the work was first published within His Majesty's Dominions or in such foreign country.

The Minister may, by notice in the *Canada Gazette*, extend the above privilege to other countries under certain conditions.

Copyright also subsists in records, perforated rolls, and other contrivances by means of which sounds may be mechanically reproduced, in like manner as if such contrivances were musical, literary or dramatic works.

Term of Copyright

The term for which copyright subsists is the life of the author and fifty years after his death, subject to certain restrictions. Provided, however, that after twenty-five years (or in the case of a copyright subsisting on June 4th, 1921, thirty years), from the author's death any person may reproduce the work upon giving notice of his intention to do so, and paying the owner of the copyright a royalty of ten per cent on the price at which he publishes the work. Photographs, records, and other contrivances are protected for fifty years from the making of the original negative or plate.

In a work of joint authorship, copyright subsists during the life of the author who dies first, and for fifty years after his death, or during the life of the author who dies last, whichever period is the longer

Authors in any country in which the terms of protection is shorter than the above, cannot claim a longer term of protection in Canada.

United States Agreement

By a reciprocal arrangement made between Canada and the United States in 1924 a Canadian citizen became enabled to obtain full copyright protection for his work in the United States, but he must, nevertheless, comply with all the requirements of the United States Copyright Act, such as typesetting, printing and binding within the United States any book or periodical in the English language. He must also register the work at Washington and print on the work the prescribed notice of copyright.

Citizens of the United States are entitled to the full protection of the Canadian Copyright Act without registration, notice of copyright, or other formality, such as typesetting, printing or binding.

British Empire and Union Countries

Canadian authors, artists and composers have full copyright protection in the British Empire and the countries of the Copyright Union without registration, notice of copyright or filing of copies.

Licenses Generally

A license gives the licensee the sole right to print and publish in Canada any book in which copyright subsists, and for such term, not exceeding five years, and for the number of editions, as may be fixed by the license. A license may be obtained for publishing a book in serial form.

The license clauses do not apply to "any work the author of which is a British subject, other than a Canadian citizen, or the subject or citizen of a country which has adhered to the Berne Convention". Some of the most important provisions of this section of the Act are as follows:

(1) Any person may apply to the Minister for a license to print and publish in Canada any book wherein copyright subsists, if at any time after publication and within the duration of the copyright the owner of the copyright fails:

(*a*) to print the book or cause it to be printed in Canada;

(*b*) to supply, by means of copies so printed, the reasonable demands of the Canadian market for such book.

(2) Such application may be in such form as may be prescribed by the regulations and shall state the proposed retail price of the edition of the book proposed to be printed.

(3) Every applicant for a license shall, with his application, deposit with the Minister an amount not less than ten per cent of the retail selling price of one thousand copies of the book and not less than one hundred dollars, and such amount shall, if the application is unsuccessful, be returned to the applicant, less such deductions for fees as may be authorized by the regulations.

(4) Notice of such application shall forthwith be communicated by the Minister to the owner of the copyright.

(5) If the owner of the copyright shall not, within the time fixed by the regulations, after communication of such notice, give an undertaking, with such security as may be prescribed by the regulations, to procure within two months after the date of such communication, the printing in Canada of an edition of not less than one thousand copies of the book, the Minister, in his discretion, may grant to the applicant a license to print and publish the book upon terms to be determined by the Minister after hearing the parties or affording them an opportunity to be heard.

(6) The Minister may decide in case two or more persons apply for the same license and also upon the conditions of publication and royalty to be paid the author.

(7) The licensee must undertake to publish an edition of not less than 1000 copies, and to print the whole book without alteration or abbreviation.

Compulsory License

If, after the death of the author of a literary, dramatic, or musical work which has been published or performed in public, a complaint is made to the Governor in Council that the owner of the copyright in the work has refused to republish or to allow the republication of the work or has refused to allow the performance in public of the work, and that by reason of such refusal the work is withheld from the public, the owner of the copyright may be ordered to grant a license to reproduce the work or perform the work in public, as the case may be, on such terms and subject to such conditions as the Governor in Council may think fit.

Serial License

The Act provides for the publishing of a book in serial form and the granting of licenses for this purpose under the terms prescribed.

Assignment of Copyright

The owner of the copyright in any work may assign the right, either wholly or partially, and either generally or subject to territorial limitations, and either for the whole term of the copyright or for any other part thereof, and may grant any interest in the right by license, but no such assignment or grant shall be valid unless it is in writing signed by the owner of the right in respect of which the assignment or grant is made, or by his duly authorized agent.

An author has the right, even after he has assigned his copyright, to restrain any distortion, mutilation or other modification of his work which would be prejudicial to his honour or reputation.

Infringement of Copyright

Copyright in a work shall be deemed to be infringed by any person who, without the consent of the owner of the copyright, does anything the sole right to do which is by this Act conferred on the owner of the copyright.

The Act makes a number of exceptions from infringement.

Performing Rights

Among the exceptions from infringement, is the important one of performing rights.

"Performance", as defined by the Act, means any acoustic representation of a work or any visual representation of any dramatic action in a work, including a representation made by means of any mechanical instrument, or by radio communication.

The performance without motive of gain of any musical work at any agricultural, agricultural-industrial exhibition or fair which receives a grant from or is held under Dominion, provincial or municipal authority, by the directors thereof, does not constitute an infringement of copyright.

Each society, association or company which carries on in Canada the business of acquiring copyrights of dramatico-musical or musical works or of performing rights therein, and which deals with or in the issue or grant of licences for the performance in Canada of dramatico-musical or musical works in which copyright subsists, shall, from time to time, file with the Minister at the Copyright Office lists of all dramatico-musical and musical works, in current use in respect of which such society, association or company has authority to issue or grant performing licences or to collect fees, charges or royalties for or in respect of the performance of its works in Canada.

No church, college, or school and no religious, charitable or fraternal organization shall be held liable to pay any compensation to the owner of any musical work or to any person claiming through him by reason of the public performance of any musical work in furtherance of a religious, educational or charitable object. The Copyright Appeal Board consists of Mr. Justice Joseph T. Thorson (Chairman), E. H. Coleman, K.C. (Under Secretary of State), and Paul Fontaine, K.C. (of Department of Justice).

Remedies for Infringement

Remedies for the owner of a copyright whose rights have been infringed are provided by the Act.

Importation of Copies

Copies made out of Canada of any work in which copyright subsists which, if made in Canada, would infringe copyright, and as to which the owner of the copyright gives notice in writing to the Department of National Revenue, that he is desirous that such copies should not be so imported into Canada, shall not be so imported.

Where the owner of a copyright has, by license or otherwise, granted the right to reproduce any book in Canada, or where a license to reproduce such book has been granted, copies of such book may not, with a certain exception, be imported into Canada.

Subject to the same exception, copies of any book in which copyright subsists may not be imported into Canada until fourteen days after publication thereof, and during such period, or any extension thereof, such copies are prohibited. Provided that if, within the said period of fourteen days, an application for a license has been made, as above provided, the Minister may, in his discretion, extend the said period, and the prohibition against importation will be continued accordingly.

Any person may import for his own use not more than two copies of any work published in any country adhering to the Berne Convention, or at any time before a work is printed or made in Canada may import copies for the use of any public library or institution of learning.

Registration

The Registrar of Copyrights, at Ottawa, keeps a book in which may be entered the names or titles of works and the names and addresses of authors, and such other particulars as may be prescribed. The registers are open to inspection to any person, who may take copies of or make extracts from such entries.

Applications for registration must be made on the prescribed forms, which it is advisable to have drawn by a lawyer.

Fees

The following fees must be paid with the application for any of the following purposes, namely:—

Registering a copyright, including a certificate of registration $3.00

Registering an assignment of copyright, in respect of each copyright assigned, including certificate of registration $1.00

Certified copies of documents or extracts, for every folio of one hundred words, 10 cents.

Application for a license, $10.00

Application for a license under Emergency Order, 1939, $10.00

The above fees are in full for all services by the Copyright Office.

PATENTS IN CANADA

The Patent Act, 1935, R.S., c. 150, s. and 1., to amend and consolidate the Acts relating to Patents was passed by Parliament and assented to June 13, 1935.

It should be noted, however, that the provisions of this act are modified and regulated by an Order in Council, made under The War Measures Act. Chapter 206, operative from Sept. 2nd, 1939, known as The Patents, Designs, Copyright and Trade Marks (Emergency) Order, 1939.

A synopsis of this Order is on page 418.
See also Order in Council P.C. 6982 on page 425.

A synopsis of the principal provisions of The Patent Act are given below:—

For a copy of the Act or of the Patents, Designs, Copyright and Trade Marks (Emergency) Order 1939, apply to the Commissioner of Patents, Ottawa, who receives all applications and has charge of all records.

As it is difficult for an applicant to properly comply with the regulations of the Patent Office unless he is conversant with the process of obtaining a patent, any person contemplating obtaining a patent is advised to consult one of the patent solicitors whose cards appear in this volume.

Definition of Invention

The Act defines "invention" as any new and useful art, process, machine, manufacture or composition of matter, or any new and useful improvement in the same.

Who May Obtain Patents

Subject to the various provisions of the Act, and of the Patents, Designs, Copyright and Trade Marks (Emergency) Order, 1939, any inventor of an invention which was:

(*a*) not known or used by others before he invented it, and

(*b*) not described in any patent or in any publication printed in Canada or in any other country more than two years before presentation of the petition, and

(*c*) not in public use or on sale in Canada for more than two years prior to his application in Canada

may obtain a patent granting him an exclusive property in such invention.

Subject to the provisions of the Emergency Order, 1939, referred to above, any inventor or legal representative of an inventor who applies in Canada for a patent for an invention for which application for patent has been made in any other country by such inventor or his legal representative before the filing of the application in Canada, shall not be entitled to obtain in Canada a patent for that invention unless his application in Canada is filed:

(*a*) before issue of any patent to such inventor or his legal representative for the same invention in any other country; or

(*b*) within twelve months after the filing of the first application by such inventor or his legal representative for patent for such invention in any other country.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

The inventor is required to make an oath or affirm that he thoroughly believes that he is the inventor of the invention for which the patent is asked.

If the inventor is dead or mentally or physically incapable, or if, after the assignment of his invention, the inventor refuses to make such oath or affirmation, or if his whereabouts cannot be ascertained after diligent enquiries, such oath or affirmation shall be made by the applicant, and shall state that he verily believes that the person whose assignee or legal representative he is was the inventor of the invention to which the application relates, and that the several allegations in such application contained are respectively true and correct.

Applications for Patents

An applicant for a patent shall state in his application, if resident in Canada, his address in Canada. If not so resident, the name and address of some person resident in Canada who has been appointed to represent the applicant or patentee for all purposes of the Act including the service of any proceedings taken under any provision of the Act. This representative may be changed if necessary.

Each application for a patent shall be completed and prepared for examination within twelve months after the filing of the application, and in default thereof, or upon failure of the applicant to prosecute the same within six months after any action thereon of which notice shall have been given to the applicant, such application shall be deemed to have been abandoned, but it may be reinstated within twelve months after the date on which it was deemed to have been abandoned, if the failure to prosecute the application within the time specified was not reasonably avoidable. An application so reinstated shall retain its original filing date.

Treaty or Convention Rights

Section 27 (1), which is specifically confirmed by Section 7 (2), of the Emergency Order in Council, 1939, referred to above, provides that an application for a patent filed in Canada by any person entitled to protection under the terms of any treaty or convention relating to patents to which Canada is a party who has, or whose agent or other legal representative has, previously regularly filed an application for a patent for the same invention in any other country which by treaty, convention or law affords similar privilege to citizens of Canada, shall have the same force and effect as the same application would have if filed in Canada on the date on which the application for patent for the same invention was first filed in such other country, provided the application in this country is filed within twelve months from the earliest date on which any such application was filed in such other country or from the thirteenth day of June, 1923.

No patent shall be granted on an application for a patent for an invention which had been patented or described in a patent or publication printed in Canada or any other country more than two years before the date of the actual filing of the application in Canada, or which had been in public use or on sale in Canada for more than two years prior to such filing.

Joint Applications

Where an applicant has agreed to assign a patent when granted to another person or to a joint applicant and refuses to proceed with the application; or where disputes arise between joint applicants as to proceeding with the application, the Commissioner may grant a patent to either one of the parties. Procedure is also outlined when a joint applicant retires or is added.

Assignments—Applicants not Inventors

A patent may be granted to any person to whom an inventor has assigned or bequeathed by his last will his right to obtain it and the assignee may register such an assignment, after which the patent cannot be withdrawn without the consent of the assignee.

Improvements May Be Patented

Any improvement to a patented invention may be patented.

Term of Patent

The term limit for the duration of patents issued by the Patent Office under this Act is 17 years from the date on which the patent is granted and issued but if the application for the patent was filed prior to the coming into force of this section of the Act, the term is 18 years from the date on which the patent is granted and issued.

Refusal of Patents

Where a patent is refused, the applicant may any time within 6 months' appeal the decision to the Exchequer Court.

Inventions By Public Servants

Section 46 deals with the restriction and regulations of the rights of an inventor if he is in the public service of Canada.

Infringement

Anyone infringing a patent shall be liable to the patentee and to all persons claiming under him for all damages sustained by the patentee or by any such person by reason of such infringement; and the Court may issue an injunction restraining the opposite party from the further use, sale, etc., of the article.

Provision is made that a person who, previous to the granting of the patent has purchased, constructed or acquired any invention shall have the right of using and selling the article, etc.

If any person has reasonable cause to believe that any process used or proposed to be used or any article made, used or sold or proposed to be made, used or sold by him might be alleged by any patentee to constitute an infringement of an exclusive property or privilege granted thereby, he may bring an action in the Exchequer Court of Canada against the patentee for a declaration that such process or article does not or would not constitute an infringement of such exclusive property or privilege.

Priority of Inventions

No patent or claim in a patent shall be declared invalid or void on the ground that, before the invention therein defined was made by the inventor by whom the patent was applied for it had already been known or used by some other inventor, unless it is established either that,

(*a*) before the date of the application for the patent such other inventor had disclosed or used the invention in such manner that it had become available to the public; or that

(*b*) such other inventor had, before the issue of the patent, made an application for patent in Canada upon which conflict proceedings should have been directed; or that

(*c*) such other inventor had at any time made an application in Canada which by virtue of section twenty-seven of this Act had the same force and effect as if it had been filed in Canada before the issue of the patent and upon which conflict proceedings should properly have been directed had it been so filed.

A second patent cannot issue unless on adjudication the first patent is set aside.

Patented Article to be Marked or Stamped

Every patentee under this Act shall, if possible, stamp or engrave on each patented article sold or offered for sale by him notice of the year of the date of the patent applying to such article, thus—Patented, 1935, or as the case may be.

When, from the nature of any patented article it cannot be so stamped or engraved the patentee shall, if possible, affix to it, or to every package wherein one or more of such articles is or are enclosed, a label marked with the like notice.

When any patented article or material is, from its nature or character, such that it cannot be so stamped or engraved and cannot, reasonably, be packaged or labelled the patentee shall, in all descriptive or advertising matter published by him and relating to such patented article or material, insert the like notice.

Abuse of Rights Under Patents Not Working a Patented Invention

The Attorney General of Canada or any person interested may at any time after the expiration of three years from the date of the grant of a patent apply to the Commissioner alleging in the case of that patent that there has been an abuse of the exclusive rights thereunder and asking for relief under this Act.

The exclusive rights under a patent shall be deemed to have been abused in any of the following circumstances:—

(*a*) If the patented invention (being one capable of being worked within Canada) is not being worked within Canada on a commercial scale, and no satisfactory reason can be given for such non-working:

Provided that, if an application is presented to the Commissioner on this ground, and the Commissioner is of opinion that the time which has elapsed since the grant of the patent has by reason of the nature of the invention or for any other cause been insufficient to enable the invention to be worked within Canada on a commercial scale, the Commissioner may make an order adjourning the application for such period as will in his opinion be sufficient for that purpose;

(*b*) If the working of the invention within Canada on a commercial scale is being prevented or hindered by the importation from abroad of the patented article by the patentee or persons claiming under him, or by persons directly or indirectly purchasing from him, or by other persons against whom the patentee is not taking or has not taken any proceedings for infringement;

(*c*) If the demand for the patented article in Canada, is not being met to an adequate extent and on reasonable terms;

(*d*) If, by reason of the refusal of the patentee to grant a licence or licences upon reasonable terms, the trade or industry of Canada or the trade of any person or class of persons trading in Canada, or the establishment of any new trade or industry in Canada, is prejudiced, and it is in the public interest that a licence or licences should be granted;

(*e*) If any trade or industry in Canada, or any person or class of persons engaged therein, is unfairly prejudiced by the conditions attached by the patentee, whether before or after the passing of this Act, to the purchase, hire, licence, or use of the patented article, or to the using or working of the patented process;

(*f*) If it is shown that the existence of the patent, being a patent for an invention relating to a process involving the use of materials not protected by the patent or for an invention relating to a substance produced by such a process, has been utilized by the patentee so as unfairly to prejudice in Canada the manufacture, use or sale of any such materials.

This section is modified by Section 5 of The Patents, Designs, Copyright and Trade Marks (Emergency) Order, 1939, which see following this Article.

License where Invention not being Worked

If a case of abuse is established the Commissioner may order a grant to an applicant of a licence on such terms as the Commissioner may think expedient; or if he is satisfied that an invention is not being worked on a commercial scale within Canada, he may under certain circumstances order the grant of an exclusive licence to an applicant able to provide capital for the working of the patent; or he may order the patent to be revoked.

In granting an exclusive licence a royalty shall be arranged payable to the patentee.

Caveats

Any intending applicant for a patent who has not yet perfected his invention and is in fear of being despoiled of his idea, may file in the Patent Office a document setting forth a description of his invention so far as it has proceeded, with or without plans, at his own will; and the Commissioner, on payment of the prescribed fee shall cause that document, which shall be called a "caveat," to be preserved in secrecy with the exception that he shall deliver copies thereof whenever required by the applicant or by any judicial tribunal. The secrecy of the document shall cease when the applicant obtains a patent for his invention.

If application is made by any other person for a patent for any invention with which such "caveat" may in any respect interfere the Commissioner shall forthwith give notice of such application by mail to

the person who has filed such "caveat", and such person shall, within three months after the date of mailing the notice, if he wishes to avail himself of the "caveat", file his petition and take the other steps necessary on an application for a patent, and if, in the opinion of the Commissioner, the applications are conflicting, like proceedings may be had in all respects as are by this Act provided in the case of conflicting applications.

Unless the person filing a "caveat" makes application within one year from such filing the Commissioner shall be relieved from the obligation of giving notice and the "caveat" shall thereafter remain as a simple matter of proof as to novelty or priority of invention, if required.

Restoration of Patents

If patent has become void under the terms of previous Acts in consequence of non-payment of fees or failure to manufacture, etc., the patentee may within two years after the date of such voidance apply for the restoration and revival of the patent, providing that there has been no undue delay in making the application and that the voidance of the patent was unintentional.

Patents Issued Out of Canada

The Commissioner shall upon the request of any person who states in writing the number and date of a patent said to have been granted in another country inform such person whether an application for a patent of the same invention is pending in Canada or not.

Patent Attorneys

A register of attorneys shall be kept in the Patent Office containing the names of all attorneys entitled to represent applicants for patents.

The principal fees are as follows:—

On grant of patent, payable on pain of forfeiture within six months from the date of notice of the allowance of patent.....$20.00

Order in Council

Relating to the Patent Act.
P.C. 6982. 4th December, 1940

Whereas The Patent Act (1935) Section 19, provides that the Government of Canada may at any time use any patented invention, paying to the patentee such sum as the Commissioner of Patents reports to be a reasonable compensation for the use thereof, and further provides that any decision of the Commissioner of Patents under the said section shall be subject to appeal to the Exchequer Court of Canada;

And Whereas the Minister of Munitions and Supply reports that in certain cases it is desirable and in the public interest to protect persons engaged in the production of munitions of war or supplies or in the carrying out of defence projects against claims for infringement of patents or registered industrial designs;

Now, Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Munitions and Supply, with the concurrence of the Secretary of State of Canada, and under and by virtue of the powers conferred by The War Measures Act and all other enabling powers, is pleased to order and doth hereby order:—

That if the Minister of Munitions and Supply on behalf of His Majesty the King in right of Canada or on behalf of His Majesty's Government in the United Kingdom of Great Britain and Northern Ireland has agreed or hereafter agrees to indemnify or to protect any person, firm or corporation against any claims, actions or proceedings for the infringement of any patent or registered industrial design based upon the use of the invention or design covered thereby in the production or sale of munitions of war or supplies or in the carrying out of defence projects by such person, firm or corporation, then no claim, action or proceeding for the infringement of any such patent or registered industrial design based upon such use shall be made or instituted against such person, firm or corporation or his or its agents or sub-contractors; but His Majesty shall pay to the owner of any such patent or registered industrial design which is valid such compensation as the Commissioner of Patents reports to be reasonable for the use aforesaid of the invention or design covered by such patent or registered industrial design, and any decision hereunder of the Commissioner of Patents shall be subject to appeal to the Exchequer Court.

The President and Vice-President are elected for a four-year term (which ends at noon of January 20th) by a college of electors who are chosen by direct vote of the citizens in every state; the voting takes place on the Tuesday after the first Monday in November in every fourth (usually leap) year. Following this election the electors meet and give their votes at the respective state capitals on the first Monday after the second Wednesday in December. The votes of the electors are opened and counted in the presence of both Houses of Congress on the 6th day of January. In actual practice, however, the electors invariably vote unanimously for their political party's nominees for President and Vice-President although there is no constitutional requirement compelling them to do so. As soon, therefore, as the popular votes in the November election are counted in each State, the results are made public, and thus the names of the President and Vice-President can readily be forecast.

The Statutory Salary of the President is $75,000 a year; $25,000 a year is also allowed the President for official entertainment expenses. The President, however, has asked the Secretary of the Treasury (October 1942) that future payments of his salary be made in compliance with the regulations of Executive Order 9250 of October 3, 1942, which provides that no salary shall exceed $25,000 yearly after certain taxes and other deductions.

Art Galleries and Museums in Canada

NATIONAL GALLERY OF CANADA, OTTAWA: *Board of Trustees*—Harry S. Southam, C.M.G., *Chairman*; Rt. Hon. Vincent Massey, P.C., E. B. Hosmer.

Director, H. O. McCurry.

Open every week-day, except Christmas Day, from 10 to 5. Sunday, 2 to 5.

Founded in 1880. The collections, consisting of Canadian, British and European paintings, sculpture, drawings, prints and other works of art acquired by means of annual grants voted by Dominion Parliament and by gifts from various benefactors, are housed in the National Museum building. In 1913 the National Galley of Canada Act (3-4 Geo. V, c. 33) was passed constituting an incorporated Board of Trustees for the management of the Gallery, the administration of its grants and for the encouragement of art generally throughout the Dominion.

In promoting this last part of its policy the National Gallery will lend to any body or society in Canada which possesses the necessary facilities a selection of Canadian paintings for any period up to one year. Loan exhibitions of the best contemporary paintings, drawings and prints both Canadian and foreign are also arranged by the Gallery and shown across Canada in all the leading cities.

Good colour reproductions of important works in the permanent collection suitable for framing and for use in schools bring the benefits of the National Gallery to every part of the country. Written lectures on different phases of art, each illustrated by 40 or 50 slides, are sent free except for transportation costs to any study group in Canada.

Recently the National Gallery has inaugurated a series of colour films showing Canadian artists at work. These and other films on art may also be borrowed on request at a nominal charge.

THE NATIONAL MUSEUM OF CANADA, OTTAWA

The National Museum of Canada originated in the Geological Survey of Canada, which was founded in 1842 by Sir William Logan. Authority to designate it the "National Museum of Canada" was given by Order-in-Council P.C. 2615 of January 5, 1927. Formerly it was designated the Victoria Memorial Museum.

The National Museum exhibits collections illustrating the natural history of the Dominion; its Geology, Mineralogy, Palaeontology, Biology and Anthropology. The study collections are open to research by properly qualified students and certain classes of specimens, *e.g.*, birds and mammals are available for loan under restriction. The Museum has a large collection of photographs of Indian and Eskimo life, birds, etc. Photographs, prints, lantern slides and motion picture films may be obtained at very moderate prices, or on loan.

ROYAL ONTARIO MUSEUM

Bloor Street and Avenue Road, Toronto

BOARD OF TRUSTEES—Dr. D. B. Macdonald, *Chairman*; Mrs. H. Warren, L.L.D., *Vice-Chairman*; Rev. H. J. Cody, D.D., LL.D., Sir Robert Falconer, K.C.M.G., Bart., Hon. G. H. Ferguson, K.C., Hon. Duncan McArthur, LL.D., Rev. D. B. Macdonald, M.A., LL.D., F. Gordon Osler, Esq., Sigmund Samuel, LL.D., Miss Helen Reynar, *Secretary*.

ROYAL ONTARIO MUSEUM OF ARCHÆOLOGY—Prof. C. T. Currelly, O. Medj., M.A., LL.D., F.R.S.C., F.S.A., *Director;* H. A. Thompson, Ph.D., F.R.S.C., *Keeper of Classical Collections*; T. F. McIlwraith, M.A., F.R. A.I., F.R.S.C., *Keeper of Ethnographical Collections*; W. G. White, D.D., F.R.S.C. (Bishop), *Keeper of East Asiatic Collections.*

The museum possesses large collections that show the primitive skill of the men in the Palæolithic, Neolithic, Copper, and Bronze ages. The early grain civilizations are illustrated in five galleries of Babylonian and Egyptian objects; the classical period occupies ten galleries, and ethnology and the American Indian twelve. Of civilization later than that of Rome special attention has been given to the collection of arms, glazed earthenware, Chinese ceramics, Japanese work, woodwork and furniture, textiles, embroideries, laces, and prints, including the Dr. Sigmund Samuel Canadiana Collection.

The collections have been formed to teach as far as possible the history of mechanical work, and to be a stimulus to the modern worker.

ROYAL ONTARIO MUSEUM OF GEOLOGY—Professor E. S. Moore, M.A., Ph.D., F.R.S.C., *Director.*

The exhibits are partly arranged on an economic basis sections being devoted to ores, fuels, ceramics, building stones, abrasives, refractories, etc. Especial attention has been directed to building and ornamental stones; copper, nickel, radium, silver and gold ores, Canadian coals, etc. The geology of famous mining regions is illustrated by mine models and suites of specimens. There are models of an oil field and oil well with working pump. Glacial geology has received much consideration; striated surfaces, striated stones, and tillites are represented from all the known Ice ages and from all parts of the world. Dynamic and Structural Geology are well represented by numerous specimens and models, and there is a large collection of water colour paintings of glacial features.

ROYAL ONTARIO MUSEUM OF MINERALOGY—Professor A. L. Parsons, B.A., F.R.S.C., *Director*; Dr. V. B. Meen, *Assistant Director.*

This museum contains an unusually complete series of minerals from all parts of the world as well as a special collection of Canadian minerals; collections of cut gems, crystals, meteorites, rocks; and a special series to illustrate the mineral association found in deposits of gold, silver, lead, zinc, radium and nickel, as well as certain non-metallic series. Among the popular exhibits are a reconstructed crystal cave and a collection to show the fluorescence of minerals.

A large part of these collections has been presented by persons connected with the mining industry.

ROYAL ONTARIO MUSEUM OF PALÆONTOLOGY—Madeleine A. Fritz, M.A. Ph.D., F.R.S.C., *Assistant Director of Invertebrate Palæontology*; L. O. Russell, M.A., Ph.D., F.R.S.C., *Assistant Director of Vertebrate Palæontology.*

The museum contains extensive series of Invertebrate fossils arranged to illustrate the anatomy and classification of the different zoological branches, and to indicate the important faunas of the geological ages. Vertebrate fossils are represented by numerous reptiles and by an excellent collection of mammals and fishes. The mounted skeletons of dinosaurs from Alberta are a feature of especial importance. Fossil plants are shown by good series of Carboniferous, Cretaceous, and Interglacial forms. The collections contain, also, a special Canadian series designed for the use of students of Canadian geology.

Much unique material is included in the exhibits, and numerous type specimens of particular value, *e.g.*, Matthew's types of Cambrian fossils from eastern Canada and type dinosaurs from the Cretaceous formations of Alberta.

The walls of the galleries of invertebrate palæontology are decorated with an elaborate series of paintings portraying successive stages in the development of the earth. They emphasize particularly the animals and plants of past ages.

ROYAL ONTARIO MUSEUM OF ZOOLOGY—Professor J. R. Dymond, M.A., F.R.S.C., *Director*; Lester L. Snyder, *Assistant Director.*

The exhibits are arranged in two galleries, one showing a representative series of animals foreign to Canada; the other, a fairly complete series of Canadian vertebrate animals and representative series of invertebrates. In the introductory portion of the Canadian gallery special exhibits are arranged including realistic reproductions of scenes showing animals as they are found in nature.

Aside from the Museum's teaching exhibits, it possesses extensive study collections. These are richest in Canadian forms but the bird collection includes that of the late J. H. Fleming representing birds of the world; consequently the Museum holds a position of importance with its store for ornithological research.

Division of Public Instruction, Miss Ruth M. Home, M.A., Supervisor; Miss Ella N. Martin, M.A., Lecturer.

FOREIGN EXCHANGE CONTROL BOARD

REGULATIONS RE IMPORT AND EXPORT OF GOODS, ETC.

The following is a summary of the more important regulations. For bulletins containing full details, apply to the Foreign Exchange Control Board, Ottawa, or its offices in Montreal, Toronto and Vancouver.

The Foreign Exchange Control Board was established by Order in Council, dated 15 September, 1939, under the War Measures Act, for the purpose of regulating and controlling all financial transactions between residents of Canada and residents of other countries.

With certain exemptions, no person shall export or import any goods, currency, securities, foreign exchange, or other property, except under and in accordance with the terms of a licence granted by the Board.

Buying or Selling Foreign Exchange

All such transactions must be through an authorized dealer, which term includes all chartered banks.

As the full regulations of the Board are quite voluminous, and changes are made it is advised that those requiring full information should apply to the nearest Collector of Customs and Excise or authorized dealer.

The personnel and address of the Foreign Exchange Control Board are given elsewhere in this volume; see index.

IMPORTS

Imports from the Sterling Area

(1) *No Import Licence Required*

No Foreign Exchange Control Board licence is required for any importation of goods to Canada direct from any part of the sterling area or of goods originating in any part of the sterling area which are imported to Canada from a country outside the sterling area.

(2) *Payment in Sterling*

The only foreign currency which may be used or obtained to pay for goods imported either directly or indirectly from any part of the sterling area is sterling. No payments may be made in United States dollars for goods originating in sterling area countries even though the goods have been bought from or through agents, middlemen or associated companies in the United States unless special permission is obtained from the Board prior to payment.

Any resident of Canada (whether an individual or a company) may operate a sterling bank account either in Canada or in a country in the sterling area and deposit therein his current receipts of sterling and make disbursements therefrom for any of his own sterling expenditures, including payments for imports into Canada from the sterling area. No permits from or reports to the Board are necessary. Any resident desiring to buy or sell sterling, however, must do so through an Authorized Dealer. Sterling may be purchased from an Authorized Dealer in any amount for remittance to countries in the sterling area to pay for imports or for any other purpose. No permit forms need be completed.

Note: The sterling area means and includes territories under the sovereignty, protection, suzerainty or mandate of His Majesty (except Canada and Newfoundland) and also includes Egypt, the Anglo-Egyptian Sudan, Belgian-Congo, Ruanda-Urundi, Iceland, the Faroe Islands, French Cameroons, French Equatorial Africa (composed of Chad, Ubanghi-Chari, Middle Congo and Gaboon) French Settlements in India and French Oceania, Syria, Lebanon and Iraq.

(3) *Payment in Canadian Dollars*

Any resident may make remittances in Canadian dollars to residents of the sterling area in any amount to pay for imports or for any other purpose. No permit forms need be completed. It is advisable, however, that cheques issued in favour of residents of the sterling area be marked by an Authorized Dealer to indicate that the payees are residents of the sterling area and that no permits are, therefore, necessary for the payments.

Imports from Newfoundland

No Foreign Exchange Control Board import licences are required for importations of goods into Canada from Newfoundland or of goods originating in Newfoundland and payment may be made to a resident of Newfoundland in Canadian dollars for such goods without any permit being obtained. United States dollars may not be obtained or used to pay for imports from or originating in Newfoundland.

Imports from Countries Outside the Sterling Area and Newfoundland

(1) *Application for Licence to Import Goods—Form E*

Subject to the two preceding Sections above, a licence on Form E is required for every importation of goods into Canada for which Customs entry is made on Customs entry form B. 1 (Entry for Home Consumption), B. 5 (Entry for Warehouse), or B. 11 (Bill of Sight or Sight Entry) except in the case of imports of periodical publications. One copy only is required which may be prepared by the importer as one of a set of the appropriate Customs forms. Form E is presented to the Collector of Customs and Excise at the time Customs entry is passed when it will be returned to the importer, upon which it consititutes a licence for the Board's purposes for the importation of the goods.

No F. E. C. B. licence is required for any importation of goods into Canada which is not entered through Customs by the use of Customs forms B. 1, B. 5 or B. 11. Form E is not to be used in connection with any amending or perfecting entries.

(2) *Payment in United States Dollars*

The Board provides United States dollars in payment for any goods originating elsewhere than in the sterling area or Newfoundland which are legally imported into Canada from countries outside the sterling area and Newfoundland. No payment may be made in United States dollars for goods originating in sterling area countries or Newfoundland even though the goods have been bought from or through agents, middlemen or associated companies in the United States unless special permission is obtained from the Board prior to payment.

An importer who desires to obtain United States dollars to pay for imports must apply to his Authorized Dealer. Except in the case of certain small payments, application must be made on Form F. The importer must surrender to the Authorized Dealer the Form E and the Authorized Dealer may then sell him United States dollars in an amount not exceeding the invoiced price of the import as declared on Form E.

If partial payment is being made for an import, the importer must deliver his Form E to his Authorized Dealer when applying for permission to make the initial payment. The Authorized Dealer retains the Form E as authority to approve further payments on account and when the final payment is made, forwards the form to the Board.

Where imports have been made for which the importer is entitled to pay United States dollars but for which a licence on Form E is not required, the importer when applying to his Authorized Dealer for United States dollars, must exhibit one copy of the Customs import entry form (usually Customs Form E. 46) or of the Customs Invoice upon which the entry was based.

An importer may not, without the specific permission of the Board, use or obtain United States dollars to pay for goods of non-sterling area origin which are to be shipped to another foreign country or which are to be imported into Canada for re-export at a later date to a country in the sterling area except where the goods are to be processed in Canada prior to export.

(3) *Payment in Canadian Dollars*

In any case where imports of goods into Canada may be paid for in United States dollars under subsection (2) above, the Board permits payment to be made instead in Canadian dollars. If an importer desires to transfer Canadian dollars rather than United States dollars to a non-resident of Canada who is not a resident of the sterling area or Newfoundland in payment for an importation of goods, he must apply to his Authorized Dealer using the Board's Form G except in the case of certain small payments. Such applications must be supported by the production of licences on Form E (or Customs documents where Form E is not required) in the same manner as applications for United States dollars.

Canadian dollars may not be paid to a non-resident who is not a resident of the sterling area or Newfoundland for imports of goods originating in the sterling area or Newfoundland.

Special Permits

In appropriate cases special permits are issued by the Board under which the permit holders, instead of substantiating individual payments for imports, furnish the Board with periodic reports containing the information the Board requires.

EXPORTS

It is a fundamental principle of exchange control that all exports from Canada to the United States and to all other countries outside the sterling area should produce United States dollars or foreign currencies which may be freely converted into United States dollars and that such United States dollars be made available to the Foreign Exchange Control Board.

In order that the Board may ensure that Canada's exports do make available the proper kind and amount of foreign exchange, a "licence" is required for every export of goods from Canada. This licence has been consolidated with the export entry form required by the Canadian Customs for the export of goods and is issued by the Collector of Customs and Excise on behalf of the Board at the time the relative Customs export entry is filed with him, although in some cases the approval of an Authorized Dealer (that is, the bank in Canada with which the exporter ordinarily does business) or of the Board is required before the Collector can issue the licence.

Licence to Export Goods—Form B

A licence on the Board's Form B is required for every export of goods from Canada for which the Customs authorities ordinarily require a Customs export entry but is not required in any other case. No Customs export entry and therefore, no licence on Form B is ordinarily required for the export of:

(*a*) Travellers' baggage, including a non-resident tourist's automobile, travelling, camping and sporting

equipment and bona fide tourist purchases taken out of Canada by and with a non-resident tourist.

(*b*) Goods of a value not exceeding $5 per shipment exported by mail, express or freight.

(*c*) Gifts to members of the Armed Forces of the British Empire or its Allies, irrespective of value.

Customs export entry form B. 13 and the Board's Form B are combined in one form. In the case of exports to Newfoundland and the sterling area, one set of at least four copies, and in the case of exports to other countries one set of at least five copies of this combined form for each carload or lesser shipment to a single consignee must be completed by the owner of the goods or by his agent and delivered to the carrier accepting the shipment for export.

The procedure outlined above is varied in some respects in the case of exporters who hold certain special permits from the Board.

Exports to the Sterling Area

Exports to countries in the sterling area may be made for payment in sterling or any other foreign currency or in Canadian dollars or they may be made without any payment or settlement being received.

An exporter who receives payment in sterling for an export or from other sources is not required to sell such sterling to an Authorized Dealer unless he wishes to do so. The sterling may be deposited in a sterling bank account either in Canada or in a country in the sterling area and (except in the case of certain capital receipts which may be deposited only to a "blocked" account) may be used to meet any of the exporter's own expenditures in the sterling area. If the exporter desires to sell the sterling for Canadian dollars, however, he must do so through his Authorized Dealer.

Exports to Newfoundland

Export licences on Form B are required for exports to Newfoundland in the same manner as for exports to countries in the sterling area. Payment for such exports is ordinarily made in Canadian dollars and Forms B covering exports to Newfoundland may be approved by a Collector of Customs and Excise whether for payment in that manner or for no payment.

Exports to Countries Outside the Sterling Area and Newfoundland

(1) *Exports for Payment in United States Dollars*

Exports to the United States and to all other countries outside the sterling area and Newfoundland must ordinarily be made for payment in United States dollars within six months of shipment.

When an exporter receives payment in United States dollars for an export, he is required to complete a declaration on Form C and offer the United States dollars for sale to his Authorized Dealer.

(2) *Exports for Payment in Canadian Dollars*

Exports of goods may not ordinarily be made to countries outside the sterling area and Newfoundland for payment in Canadian dollars.

Collectors of Customs and Excise may approve licences on Form B covering exports for payment in Canadian dollars to countries outside the sterling area and Newfoundland only in the case of goods purchased by a non-resident tourist while in Canada as bona fide tourist purchases which are being shipped to him by the Canadian vendor of the goods. The Form B must be clearly marked "Bona fide tourist purchase," meaning goods for personal or household use purchased by a non-resident tourist while in Canada and not being exported for resale.

In all other cases of exports of goods to countries outside the sterling area and Newfoundland for payment in Canadian dollars, Form B must have been approved by an Authorized Dealer *before* being submitted to a Collector of Customs and Excise.

(3) *Exports for which No Settlement Has Been or Will Be Received*

Where an export is being made to a country outside the sterling area and Newfoundland of goods for which no settlement has been or will be received, the exporter should complete the appropriate section of Form B (Section O) indicating that this is the case. Collectors of Customs and Excise have authority to approve licences on Form B covering such exports in the following cases:

(a) Goods which, if being imported into Canada, would be entitled to entry under Customs tariff item 706 (including goods the property of persons accorded diplomatic privileges or of the office to which they are attached) or item 707 (goods the property of the Governor General) or item 708 (goods the property of the Imperial Government and goods exported to officers or men of the Royal Navy).

(b) Travellers' samples.

(c) Printing plates, electrotypes, matrices and similar articles used in the printing trade if being exported without charge by or for use in newspapers or periodicals, or re-exported after having been imported without charge by or for use in newspapers or periodicals.

(d) Goods of no commercial value, including samples exported for test and samples re-exported after having been imported for test.

(e) Goods exported temporarily for repairs adjustments or to be tested, such that on return to Canada they will be eligible for entry on payment of duty on the value of repairs, adjustments or tests only.

(f) Properly identified empty containers or covers which are to be returned to Canada for entry under item 709 of the Customs tariff.

(g) Animals and articles, the property of non-residents, entered ex-warehouse for export after having been imported for exhibition or convention purposes.

(h) Vessels or vehicles operating internationally except in respect of the last exportation from Canada of any such vessel or vehicle which changes its ownership or ceases to operate internationally.

(i) Imported periodicals or covers of imported periodicals being re-exported from Canada.

(j) Stores, equipment and supplies exported by a railway company which operates lines in both Canada and the United States, provided that such stores, equipment and supplies are being exported for its own use and are not being exported for sale outside Canada.

In all other cases Form B must have been approved by an Authorized Dealer *before* being submitted to a Collector of Customs. In certain cases Authorized Dealers have authority to approve exports of goods to countries outside the sterling area and Newfoundland for no settlement and in other cases they will refer the applications to the Board.

It should be noted particularly that the approval of an Authorized Dealer is necessary for exports, other than to the sterling area or Newfoundland, of settlers' effects, gifts of a value of more than $5 and of imported goods which are not in accordance with order unless payment in United States dollars is to be received for their return (in which case Section R of Form B should be completed and not Section O).

Exports by Mail or Parcel Post

Exports of goods by mail or parcel post are subject to the same licence requirements as exports made by express or freight. When making an export of goods by mail or parcel post for which a licence is required, the sender should present Form B to the Postmaster at the point of mailing.

In cases where no export licence on Form B is ordinarily required (*e.g.* goods of a value not exceeding $5 and gifts to members of the Armed Forces), the sender should submit the goods for examination by the Postmaster at the point of mailing who will, if satisfied that no Form B is necessary, certify that the parcel has been passed for export. If this is not done, there may be needless delay in delivery of the parcel.

CANADIAN TARIFF OF CUSTOMS

NOTE—The rates given in this edition of the Tariff are assigned according to the best available authorities. We, however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

All rates of duty shown in Customs Tariff, Schedule A starting on page 604, are subject to the provisions of the WAR EXCHANGE CONSERVATION ACT, 1940, on page 597. This provides for the total or partial prohibition of import of certain goods from the United States of America and other countries outside the Sterling area; see Schedule 1, (page 598), parts 1 and 2, and the temporary reduction or abolition of duties on goods from the United Kingdom, see page 602.

RATES OF DUTY

Rates of Duty are given in 4 columns; the first is the British Preferential Tariff, (see Note 11 following), the second is the most Favoured Nation rate, (see Note 16), the third is the Intermediate Tariff, (see Note 13), and the fourth is the General Tariff (see Note 14). The rate of Duty is per cent. *ad valorem* except when otherwise specified. Where a single rate with 3 blanks is shown, (generally under Most Favoured Nations), example: —; 10%; —; —, the entry is an "extract" from the main item in the official Customs Tariff and is a special rate applying only to that column. When word "Free" is printed once only it applies to all tariff.

In addition to these rates the following taxes: 3% excise tax on duty paid value on general tariff; Sales Tax 8% on duty paid value; 10% War Exchange Tax on value for duty—not applicable to British Preferential or other British trade agreements; and special Import Excise Taxes, beginning on page 582. CUSTOMS PROCEDURE, ETC.

EXPORTING TO THE UNITED STATES

The customs laws of the United States, governing the importation of goods, very materially differ from ours. They have no such thing as the manifesting system such as we have, and all merchandise is supposed to be entered at the first port of arrival. However, they have ports termed I.T. Ports (immediate transport ports) to which goods may be forwarded in bond, without appraisement at the frontier port. In this case the goods must be carefully marked "Forwarded in Bond."

Merchandise, in order to be entered under Immediate Transportation, without appraisement at the frontier, must be destined to a designated immediate transportation port, and *must* be billed via a port at which merchandise may be entered for transportation to another port without appraisement.

These ports *through which* goods must be billed and *to which* they must be consigned may be learned from the transportation company as the lists are too extensive to be given space here.

If goods are destined for a foreign country they are entirely under Transportation and Exportation entry in bond, in transit, for exportation from the seaboard port.

EXPORTING TO OTHER COUNTRIES

Exporters requiring information regarding invoice forms and Customs Regulations of other countries, applying to goods exported from Canada, should write to Department of Trade and Commerce, Ottawa.

GIFTS TO THOSE ON ACTIVE SERVICE

To be exported as gifts, addressed to members of the armed forces of the British Empire or their Allies, do not require a permit to export.

GOODS TO BE RETURNED TO THE U.S.

Merchants finding it necessary to return goods not according to order and wishing to obtain refund of duty will be required to make out four different forms to accompany the way bill when goods are shipped back. If shipment is over $100.00 the forms are as follow:

1. "Foreign Owner's Oath" or "Oath of American Manufacture."
2. American Consular Certificate.
3. Export papers in triplicate.
4. One certified copy of Customs Incoming Manifest.

F.E.C.B. export permit—5 copies.

Where shipment is under $100.00 the American Consular Certificate and Incoming Manifest are not required.

The intending consignee must send to the U.S. shipper for an affidavit on a prescribed form, mentioned above as the Oath of American Manufacture, declaring the goods to be of United States origin or manufacture, in order that the goods when returned may pass the U.S. Customs without duty.

When this affidavit is received it must be attached to the way bill by the transportation agent here and forwarded along with the goods. This will enable the United States Customs Officer at the frontier to recognize the goods as home manufacture and have them forwarded on to destination without duty. The original U.S. shipper may secure these forms at his Customs, but a better way is for the intending consignee to secure a copy from the local express agent here and forward same to the U.S. firm with all necessary explanation as to line of procedure and thus avoid possible delay.

The American Consular Certificate forms must be obtained from the nearest American Consul, who will send blank forms in triplicate. These must be filled in as required and returned to the American Consul with his fee, when he will return one copy to the inten-

ding consignee, who will attach same to way bill with other documents mentioned.

Export entry, procurable from Customs Department, must be made out by consignee in triplicate and attached to way bill together with the Foreign Owner's Oath, Consular Certificate and Incoming Manifest. One copy will remain on file at the port of exit, the second copy goes to the Customs Department and the third copy will be returned by the Customs officer at the Canadian port of exit to the merchant who returned the goods. He will then attach it to the refund of duty claim along with a copy of the way bill as a guarantee that the goods have been returned.

DUTY, TAXES AND REFUNDS ON MATERIAL AND ARTICLES IMPORTED FOR WAR PURPOSES

1. All material and articles for war purposes, (except as stated below) are subject to the regular duty and taxes at time of importation into Canada.

2. If they are to be incorporated into munitions of war covered by contracts with the Department of Munitions and Supply for the British Government, they are subject to refund of duty and taxes.

3. Articles and materials for Allied Nations and British Dominions, imported and used on same conditions as above, are dealt with in the same manner.

4. "Munitions of war" shall mean articles and materials as enumerated and classified in the following appendix.

SETTLERS' EFFECTS ENTRY

Settlers' effects are admitted duty free, if actually owned abroad by the settler for at least six months before his removal to Canada, and subject to regulations prescribed by the Minister.

Provided that any dutiable article entered as settlers' effects may not be so entered unless brought by the settler on his first arrival, and shall not be sold or otherwise disposed of without payment of duty until after twelve months' actual use in Canada.

Settlers' effects, viz:—Machines and implements for agricultural purposes, moved by mechanical power, and motor vehicles valued at not more than one thousand dollars, and boats for fishing purposes, if actually owned abroad by the settler for at least six months before his removal to Canada, are free subject to regulations prescribed by the Minister of National Revenue.

Provided that in respect to motor vehicles valued in excess of one thousand dollars duty shall be payable only on the amount in excess of one thousand dollars.

Provided further that the said machines, vehicles, implements and boats may not be so entered unless brought by the settler on his first arrival, and shall not be sold or otherwise disposed of without payment of duty until after twelve months' actual use in Canada.

AUTOMOBILES IMPORTED BY NON-RESIDENTS FOR PLEASURE PURPOSES ONLY

1. Automobiles imported by non-residents for their personal transportation may be admitted without the payment of duty thereon, under Traveller's Vehicle Permit (Form E. 50) subject to the following regulations:

On arrival at the frontier Customs port of entry, the driver of the automobile shall report at Customs and apply for a permit. The applicant for a permit shall be a non-resident of Canada and a temporary visitor therein. He or she shall be the owner of the automobile, or a member of the immediate family of the owner, who is also a non-resident of Canada, or shall be able to produce written authority from the owner to use such vehicle.

The automobile shall be admissible only when imported for the use of the non-resident permit holder, for the transportation of such non-resident, his family and guests, and such incidental carriage of articles as may be necessary and appropriate to the purposes of the journey, but not to be used for the transportation of persons or articles for hire, nor in any case primarily for the carriage of articles. The use by any other person than the non-resident permit holder shall result in seizure and forfeiture of the vehicle.

No fee is to be collected for Customs attendance at any time in connection with the entry of travellers' automobiles.

2. *Temporary Admission, forty-eight Hours, at Ports and Outports on the Frontier Only*—In respect of automobiles entering Canada for a stay not exceeding forty-eight hours within the jurisdiction of the port or outport only, *and not to proceed further*, when the Collector or Sub-Collector is satisfied that conditions of subsections (*a*) and (*b*) of Section 1 are complied with, he is authorized to permit entry upon the owner surrendering his State license card, which will be returned to him on the return journey. In such cases, the use of Form E. 50 may be dispensed with.

3. *Tourists' Permits for a Period not Exceeding Sixty Days*—In respect of automobiles entering Canada for a period not exceeding sixty days, the Collector, if satisfied that the conditions stipulated in sub-sections (*a*) and (*b*) of Section 1 are complied with, may admit the vehicle without formal entry and may issue a tourist's permit in triplicate on Form E. 50 for a period not exceeding sixty days.

(*a*) Should a tourist who has been granted a sixty-day permit desire an extension for a further period up to six months from the time of original entry, he may, upon presentation of the permit before the expiry date of same, apply for such extension on Form E. 50-A (which may be obtained at any Customs port or outport) to any Collector or Sub-Collector of Customs and Excise, who, upon being satisfied as to the bona fides of the use of the automobile, may extend the permit for such further period, notifying the port of issuance by one copy of E. 50-A as directed thereon.

4. *Tourists Permits for a Period in Excess of Sixty Days but not Exceeding Six Months*—If, on reporting at the Customs frontier port of arrival, the non-resident owner of an automobile desires a traveller's vehicle permit for a period in excess of sixty days, the Collector, if satisfied that the conditions stipulated in sub-sections (*a*) and (*b*) of Section 1 are complied with, may admit the vehicle without formal entry and may issue a permit in triplicate on Form E. 50 for the period designated by the traveller, such period, however, in the first instance, not to exceed six months.

If, through accident, illness or other unusual circumstances, the exportation of the vehicle at the expiration of six months from the date of the original entry cannot be effected, the matter shall be reported to the Commissioner of Customs, who, if satisfied as to the bona fides of the application, may authorize the extension of the traveller's vehicle permit for such additional period of time as may be necessary, and may specify the conditions under which such extension may be granted, and with what security.

TRAVELLERS' VEHICLES

5. *Carrying Passengers Only.*—Automobiles, motor trucks and other motor vehicles owned by British or foreign subjects may enter Canada and return to the United States without payment of duty on such vehicles when employed in conveying passengers in

transit across the frontier, provided they are employed only for through transportation of passengers (either or both ways) between a point or place in the United States and a point or place in Canada. After a careful examination and appraisal has been made of such vehicles to enable the Customs officer to identify them on leaving the Dominion, Traveller's Vehicle Permit (Form E. 50-B) shall be issued by the Collector or Sub-Collector on his being furnished with:

(*a*) a cash deposit equivalent to the duty and taxes payable on the automobile, or

(*b*) a bond of an approved guarantee company on Form D-3½, or

(*c*) the special bond of an approved guarantee company on Form D3-A.

On exportation of the vehicle under Customs supervision within a period of thirty days, the cash deposit shall be subject to refund or the bond to cancellation. In default of proof of such exportation within thirty days, the cash deposit shall be taken to account as Customs duty and taxes, and the provisions of the bond enforced.

6. *Carrying Goods.*—Automobiles, motor trucks and other highway vehicles owned by British or foreign subjects, carrying goods (dutiable or not) for delivery to a point in Canada may be admitted under Commercial Vehicle Permit (Form E. 50-B), under the provisions of Section 5 above if proceeding to an interior port with a load (and under the same Section but without requiring a bond if the goods imported thereby are intended for delivery within the limits of the frontier port of arrival, provided the Collector is satisfied that security is not required), subject to due entry at Customs at the frontier port of arrival of all goods to be discharged in Canada, and the payment of all duties and taxes to which such goods may be liable, failing which, they must be forwarded in bond under manifest by railway to the point of destination. Provided, however, that goods arriving by highway vehicles entitled to entry on Form B. 4 as settlers' effects, and goods for bona fide exhibitions, or horses for racing purposes eligible for entry on Form B. 18, may be allowed to proceed to interior destinations under Commercial Vehicle Permit for the vehicle, and manifest Form A-8 for the goods, without convoy; the same privilege may be granted theatrical scenery and effects, and horses for breeding purposes, if the report and deposit required under Memo D. 22 and No. 5, respectively, are not made at the frontier, in which case the report, and deposit (if any) shall be made at the port of destination.

(*a*) The exemption from duty prescribed in these Regulations shall not apply to vehicles used by peddlers with goods for sale, in which case duty and taxes are to be collected, having due regard to the provisions of Tariff Item 1215.

(*b*) The term "local traffic" used in this Regulation, and in the bond forms established in connection therewith, and the term "through transportation" shall not be held to prevent motor vehicles of foreign origin and not duty paid brought in by non-residents of Canada and *Used in the International Conveyance of Passengers*—from, (i) discharging passengers at different points in Canada on the inward trip, provided such passengers are destined through direct from the point of embarkation to the point of discharge, or (ii) taking on non-residents of Canada at different points in this country on the outward journey, provided the passengers so laden are destined through direct from the point of lading to a point in a foreign country; *This not to include the privilege of taking on passengers at one point in Canada and discharging such passengers of another point therein.*

7. *Carrying Goods in Transit Only.*—Merchandise may not be transported in bond by motor vehicles over the highway from one point in the United States to another point therein through Canada except in districts which are not served by railways and then only after authority has been given by the Department and necessary arrangements completed.

8. Automobiles, trucks and other vehicles exported by residents of Canada.

(*a*) Automobiles, trucks and other vehicles of Canadian origin, or duty paid in Canada, whether travelling under their own power or transported by rail or ship, may be exported, temporarily, upon execution of Form E-60. This Form (which may be issued and verified at any Port in Canada) and the relative Provincial Motor Vehicle Permit, are required to be shown to Canadian Customs when departing from or returning to Canada. This means of identification permits the car and equipment to be admitted without payment of duty and taxes, except upon the value of repairs and equipment acquired abroad, as noted in paragraph (*b*).

(*b*) If it became necessary, because of an accident, to have repairs made abroad in order to enable the vehicle to continue the tour and return under its own power, the compulsory repairs so made shall be exempt from duty and taxes. In cases where no accident to the vehicle has occurred, but tire casings or inner tubes, or both, have been replaced in the ordinary course, exemption from duty and taxes may be granted under this regulation on one tire casing and one inner tube only.

(*c*) If additional equipment is installed and when the Provincial Motor Vehicle Permit expires, a new Identification Form E-60 is required.

SPECIALLY ENDORSED TRAVELLERS' VEHICLE PERMITS

11. *Extensions to Permit Use for Health or Pleasure Only.*—Automobiles of non-residents coming to Canada by motor car for purposes which preclude their being granted a tourist s permit, such as attending meetings of companies, visiting actual or prospective properties, etc., in which they may have or seek an interest, preaching, teaching or engaging in professional practice for a limited period only, attending school, or other such institution may be admitted under traveller's vehicle permit *without bond or deposit*, the visitor being required to proceed directly to the Collector at or nearest to his destination and to make application *in writing*.

Driving between points in Canada attending meetings or conferences or examining properties or industrial plants are not considered to be violations of the privileges of a permit endorsed as provided for herein.

TOURISTS' OUTFITS

1. *Temporary admission.*—Persons visiting Canada for a limited period of time, for health or pleasure, may bring with them such articles of tourists' outfits or sportsmen's equipment as they may require while in Canada for their own use and not for gain or hire, upon reporting same to the Customs Officer at the Canadian frontier port of entry, subject to Customs Regulations.

(*a*) Boats (portable), Canoes, Outboard Motors, Tents, Camp Equipment, Radios, Phonographs, Musical Instruments, Fishing Tackle, Golf Clubs, Tennis Racquets, Cameras (still and motion picture, as well as a reasonable quantity of film for use therein), and Typewriters, previously used by a tourist and imported by him for his personal use and actually in his possession at the time of his arrival in Canada, as well as dogs and other animals and birds imported by tourists solely for hunting purposes or as domestic pets, may be admitted without deposit.

Household furniture and other effects, brought in by a non-resident for the temporary equipment of a summer residence and to be exported within the season, and other unspecified articles, may be admitted after report on Form E-29, upon the Collector being furnished with a cash deposit of a sum equivalent to the duty and taxes payable thereon, the deposit to be subject to refund if the articles be identified and exported at the Customs port where reported inwards, or at another port, within six months from time of entry.

Gasoline allowance—is subject to rationing at time of entry into Canada.

Tourists or non-residents visiting Canada carrying firearms should bear in mind that guns and rifles for sporting purposes are admissible only by special firearms permit issued by Commissioner of Customs, Royal Canadian Mounted Police, Ottawa, and a Police Permit, obtainable from the Department of the Attorney-General of the Province concerned, will be required to carry same in the

Dominion. Both these forms of permit are necessary, however, in respect of revolvers or pistols, the Customs Importation Permit being furnished by the Department at Ottawa, and then only after the Police Permit has been obtained. Automatic pistols are absolutely prohibited importation.

TRAVELLERS' BAGGAGE

General Provisions.— Wearing apparel, articles of personal adornment, toilet articles and similar personal effects of persons arriving in Canada may be passed free, without entry at Customs, as travellers' baggage, under the provisions of the Customs Tariff, but this provision shall include only such articles as actually accompany and are in the use of and as are necessary and appropriate for the wear and use of such persons for the immediate purpose of the journey and present comfort and convenience, and shall not be held to apply to merchandise or articles intended for other persons or for sale. *Merchandise for Sale, when brought into Canada as baggage, is subject to duty and to entry at Customs in the same manner as goods imported by freight or express.*

Goods valued at not more than one hundred dollars included in the baggage accompanying residents of Canada returning from abroad after an absence from Canada of not less than forty-eight hours and acquired by them for personal or household use or as souvenirs or gifts, but not bought on commission or as an accommodation for other persons or for sale, under regulations prescribed by the Minister are allowed, under the Canada-United States Trade Agreement, 1935, duty free, but see import prohibition in War Exchange Conservation Act 1940, on page 581.

Provided that a resident of Canada shall not be entitled to the exemption herein granted within a period of four months from the date of the last exemption allowed, nor shall the exemption be allowed on alcoholic beverages in excess of one quart, or on tobacco in excess of fifty cigars, two hundred cigarettes and two pounds of manufactured tobacco.

4. *Tools of Trade.*—Usual tools of trade, occupation or employment of a workman, previously used by him, if imported for his personal use and actually in his possession at the time of his arrival in Canada may be admitted free as Travellers' Baggage.

Note.—This section may be held to include typewriters and stenotype machines brought in by non-residents for temporary use.

5. *Still picture cameras* (including a reasonable supply of positive film therefor), imported by non-residents, for use in taking pictures of Canadian industrial, commercial or other activities, may be admitted on deposit of a sum equivalent to the duty and taxes ordinarily payable thereon, subject to refund if the camera and all pictures taken thereby, positive or negative, be exported under customs supervision within thirty days from the date of importation.

ADDITIONAL ARTICLES TREATED AS TOURISTS' OUTFITS

Theatrical Scenery.—Theatrical scenery and stage properties, including trained animals, owned or leased and imported by foreign producing companies or by proprietors of foreign vaudeville acts, to be used in Canada by regular performers thereof and not by any other persons, nor for sale or rented in Canada, may be admitted without payment of duty and taxes, provided it is reported on Form E-29, and a cash deposit in a sum equivalent to the duty and taxes ordinarily payable thereon furnished the Collector of Customs and Excise. If the articles are exported under Customs supervision within six months from the time of entry, the deposit will be subject to refund; otherwise, same will be taken to account as duty and taxes.

Theatrical Costumes.— Theatrical costumes being the personal property of the actor, when imported by him for his own use in theatrical exhibitions, and not for sale or for use by any other person, may be admitted free as travellers' baggage. Similar treatment may be accorded to theatrical costumes imported by foreign producing companies or proprietors of vaudeville acts when such costumes are owned or rented by such producing companies or proprietors of vaudeville acts and when used by them or regular members of the importing company or troupe and not by any other person.

(*a*) Used theatrical costumes imported by Canadian Theatrical Companies or individual Canadian actors performing in such companies on rental and to be exported after temporary use in Canada, and used costumes brought in by promoters, actor managers or directors entering Canada with one or more costumes for use in the presentation of amateur or other performances for charitable or other institutions and to be exported after such temporary use, are dutiable. After an investigation into the value of such costumes at the time of importation, the Department has determined that $2 per costume is the minimum amount of duty and taxes to which such costumes should be liable, having in view the average condition of used costumes, the lack of a basis upon which any fair market value in the country of production may be established and the temporary use only in Canada for which such costumes are imported.

(*b*) Costumes which do not come within the provisions of the preceding sections are dutiable under the ordinary provisions of the Customs Tariff.

See article elsewhere "Shows and Circuses".

MUSICAL INSTRUMENTS, MOTION, STILL AND SOUND PICTURE APPARATUS, SLIDES AND FILMS

(*See also page 701*)

(*a*) *Musical Instruments.*—Musical instruments, the property of companies of musicians or individual non-resident concert artists entering Canada for the purpose of giving public or other concerts, may be admitted after report on Form E-29; upon the Collector being furnished with a cash deposit in a sum equivalent to the duty and taxes payable thereon, the deposit to be subject to refund if the articles be identified and exported at the customs port where reported inwards, or at another port, within six months from the time of entry.

(*b*) Any Collector of Customs may permit any musical instrument to be imported and used on not more than two occasions within the limits of his own port under such precautions or provisions as he may consider necessary to secure the due exportation thereof immediately after such use, but no instrument or instruments so admitted shall be allowed to be moved to any other port without the collection of duty and sales tax properly payable thereon.

(*a*) *Motion, Still and Sound Picture Apparatus, Slides and Films.*—Motion and still picture projection apparatus or slides and films therefor, the property of persons or firms non-resident in Canada, to be used, in gratuitous exhibitions for non-commercial purposes may be admitted as provided in preceding paragraph.

(*b*) Sound motion picture and motion picture camera outfits for taking sound motion or motion pictures of Canadian landscapes or industrial or other activities are dutiable each time of importation, without provision for refund upon subsequent exportation.

These materials include: Contractors' Equipment, Canteen Supplies, Moving Picture Projectors and films therefor, and the exemptions apply in general only to materials imported by or for United States Contractors, or by or on behalf of the United States Government, or when covered by a United States Public Roads Administration Alaska Highway Purchase order.

REGULATIONS GOVERNING TEMPORARY ADMISSION OF ARTICLES FOR SPECIAL USE

1. (*a*) The Department has authorized the use of Temporary Admission Report Form E-29, under which certain specified articles may be permitted entry without payment of duty and taxes. Provision is made on the Form for a computation of the amount of duty and taxes properly payable, and a cash deposit of an amount equal to that sum is to be supplied, unless otherwise stipulated. The E-29 must be surrendered by the holder and exportation must be made within six months from the date of entry (unless otherwise provided for), and any cash deposit which may have been furnished will then be subject to refund, otherwise it will be taken to account as duty and taxes. The goods must be identified by a Customs Officer prior to exportation.

(*b*) Although the furnishing of a deposit may be required by the regulations, any Collector of Customs may, in his discretion, waive its collection if the imported articles entered under Form E-29, are to be used within the limits of his own port, under such precautions or provisions as he may consider necessary to secure the due exportation thereof immediately after such use.

To convert dollars into sterling, take the pounds opposite the nearest amount below the dollars to be converted; the balance will then be found in the s.d. table.

As an example— $443.20 = £99:3:0

Nearest amount below = $442.53 = £99:0:0
balance = .67 = 3:0
$443.20 = £99:3:0

Amounts of 10 times or 100 times those given in table may be conveniently calculated by moving decimal point one or two places to the right.

As an example—to convert £840:0:0 to $,—£84:0:0 is $375.48; move decimal 1 place to right = $3,754.80.

SECURITY TRANSFER TAX, QUEBEC

The Scale of Tax is the same as for the Dominion of Canada, shown above. (except on shares of stock selling over $150.00—5c per share), on the following transactions:—

Upon every change of ownership of a security consequent upon the sale, the transfer or the assignment thereof, made in or carried into effect in Quebec Province;

Upon every delivery in Quebec of a security payable or transferable to bearer, when the sale, transfer or assignment thereof has been executed outside of Quebec;

Except as hereinafter provided, if a change of ownership otherwise than by sale is effected, of any share of stock, such change of ownership shall be subject to the tax imposed by this section, computed on the basis of the current market price of the aforesaid share of stock.

When a current market price has not been established by recent sales, or where it is difficult to ascertain the value of the shares of stock, the Provincial Treasurer may fix a price which shall be the price on which the tax shall be paid.

In this section, the term "share of stock" applies to the share of any undivided interest and the share of any participating interest, such as mentioned in sub-paragraph b of subsection 2 of section 1a of this Act.

In respect of transactions in fractional shares, the tax applies pro rata according to the rate exigible in respect of whole shares.

NOT SUBJECT TO THE TAX

Certain transactions not included above are exempt; such as transmissions owing to death, allotment of a first issue, transfers or assignments in connection with the security of a loan, etc.

For further information, apply to the Comptroller of Provincial Revenue, Quebec.

CANADIANS TRAVELLING ABROAD

UNITED STATES IMMIGRATION REGULATIONS

The United States Immigration laws apply equally to all persons not citizens of the United States on each occasion of their entry into the United States.

Every person desiring to enter the United States for any purpose whatever, even for a limited time, must have (1) a passport from the Government to which such person owes allegiance, and (2) a visa issued by an American Consular officer.

Visaes are of two kinds: (1) Immigration visaes, which are for permanent or indefinite residence in the United States, and (2) Non-immigration visaes, which are for temporary entry into the United States for definite short periods for business, pleasure, transit through, et cetera.

The nearest American Consular officer should be consulted for detailed requirements of the law in connection with immigration visaes and the documents necessary. For addresses of Consulates, see index.

American citizens do not require passports to reenter the United States but must satisfy the immigration officials that they are in fact United States citizens. Any person who has been legally admitted to the United States but who has not become an American citizen, and who desires to visit outside the United States, should obtain a reentry permit from the immigration authorities *before* leaving the United States.

On August 27, 1940, an additional type of permit for visitors to the United States was introduced, namely: the "border crossing card." This card is designed only for Canadians or British subjects domiciled in Canada who wish to visit the United States for business or pleasure for a period of less than thirty days. Any number of such visits, during the validity of the passport and border crossing card, would be possible. The applicant for the border crossing card is required to present a valid passport and a letter of reference from his employer, or bank manager, or a responsible professional person to whom the applicant is well known.

Under existing regulations all applicants for visitors' visas or border crossing cards must satisfy the Consul to whom they apply that there is reasonable need or a legitimate purpose for a visit to the United States.

CANADIAN PASSPORT REGULATIONS

In place of the two forms of passport used up to March 31st, 1941, one passport is now issued, good for 2 years for travel in any country in which Canadians may legally travel. The cost is $3 and is renewable for four 2-year periods at $1 per renewal.

Application forms may be obtained from The Passport Officer, Department of External Affairs, Ottawa, and from branch passport offices at Vancouver, B.C., Windsor, Ont., and Moncton, N.B.

Passports already issued will be valid until the date on which they expire.

Canadians travelling to the United States are required by United States law, to have, in addition to a passport, either a visa or a border crossing card. For information regarding these, see under "United States Immigration Regulations."

Canadian regulations also require a travel permit from the Foreign Exchange Control Board, whether or not funds are being carried. See elsewhere on this page.

Women, other than women engaged or employed in the Armed Forces or Public Service of Canada, and children under 12, are not allowed to go to or through the European war zone without a special permit. Applications may be addressed to the Under Secretary of State for External Affairs, Ottawa.

Two photographs are required by the Passport Office and the U.S. Consul will require 3 photos upon application for visa.

FOREIGN EXCHANGE CONTROL BOARD REGULATIONS RE U.S. FUNDS

Canadians Resident in Canada

On July 5th, 1940, the Minister of Finance, Ottawa announced that in order to conserve the nation's supply of U.S. funds for the purchase of war supplies and other vital needs, Canadians would be asked to forego the use of funds for pleasure travel in the United States. As a result of this announcement of Government policy, the Foreign Exchange Control Board does not permit the sale of U.S. funds to residents of Canada for the purpose of purely pleasure travel in the United States or other countries outside the sterling area, nor does it allow the export of Canadian dollars for this purpose.

Canadians Leaving Canada

No Canadian resident may leave the country (except for direct travel to Newfoundland or a country in the sterling area) without a permit from the Board, even if there is no intention of taking money out of the country. Permits for pleasure travel may be granted, but only when all expenses including railway fare are paid by United States residents as a gift and not as a loan.

Travel Permits

It is recognized that there are a number of legitimate purposes for which the export of funds for travel should be permitted.

Application for the ordinary form of travel permit, which is required by any resident travelling to the United States and other countries outside the sterling area, is made on Form H, copies of which are available from branches of Canadian banks, saving banks and express companies. The application form, if approved, itself constitutes the permit.

To obtain such a permit the applicant should go to the bank or other institution with which he regularly transacts business or to any of those agents of the Board to whom the applicant satisfactorily identifies himself.

Business Travel

Business firms having a considerable volume of business travel in the United States are asked to submit budgets of their necessary travel expenditures so that, in appropriate cases, the Board may authorize their banks to sell them United States funds and issue travel permits in cases coming within the scope of their budgets. In other cases application may be made to banks or other agents of the Board by persons for whom it is necessary to travel to the United States on business; in such cases the traveller should produce evidence that the application has been approved by his employer, either in the form of a letter stating the purpose of the journey and the amount required or by the counter-signature of the employer on the application for the travel permit.

Health Travel

Applications made for health reasons must be confined to those where serious illness or permanent disability would result from continued residence in Canada. A special form of application for health travel may be obtained from banks. A medical report on a form provided by the Board must be completed by the applicant's medical doctor and forwarded to the Board at Ottawa. If an application is approved, the amount of funds provided is strictly limited to necessary expenses.

Travel for Educational Purposes

Travel to the United States to attend school or to commence an under-graduate course at a university is not regarded as necessary. In general, each application for travel for educational purposes is considered on its own merits, having in mind the existence of facilities in Canada for obtaining adequate training of the same kind. There are certain post-graduate studies and certain forms of technical training for which travel to the United States will be approved.

In Transit Travel

In a number of districts in Canada the only or quickest and most direct route between two Canadian points is through the United States. Travel permits are granted in bona fide cases, provided the amount of United States funds requested is the minimum required for a direct trip through the United States without any unnecessary stopovers in that country.

Travel for Special Personal Reasons

It is recognized that there are cases where, for special personal reasons, travel to the United States by a Canadian resident is actually necessary. Each application of this kind is considered by the Board in the light of the particular circumstances.

Special Border Permit

This permit may be obtained by transportation and communications employees who cross the border frequently in the course of their employment, by persons who reside in Canada but are employed in the United States, and in certain other cases where the need for such permits is apparent, as for example, by truck drivers employed by Canadian companies near the border and in other special cases where residents of Canada make daily or very frequent business trips to the United States.

Forms of application for these permits are available at local Customs Offices, banks and savings banks and the application may be made to the Board's offices at Windsor or Vancouver by residents of those cities and at Ottawa by other residents.

A Special Border Permit is valid for a period of approximately six months and is then eligible for renewal. The permit enables the holder to take with him on each trip a stated amount of United States and/or Canadian currency and, where necessary, will be his authority to purchase such United States funds from a Canadian bank.

Short Form H—48 Hours Travel Permit

This permit may be used in place of the usual travel permit on Form H in cases where a resident is making trips of not longer than forty-eight hours in the United States which do not involve expenditures outside Canada (except of the kind indicated below), either directly by the applicant or by any other resident on his behalf, or indirectly by reason of transportation or other expenses in the United States being paid for in Canada. Accordingly this type of permit may not be used where aeroplane, railway, bus or other tickets have been purchased in Canada for any destination in the United States except a city or town immediately across the border such as, for example, Detroit or Buffalo. The permit does not allow a resident to take any United States funds out of Canada but allows him to take up to $5 in Canadian funds so that he may have money on hand for immediate expenses on his return to Canada. The expenditure of such Canadian funds in the United States is not authorized, except for nominal amounts for transportation within the town visited in the case of social visits to friends or relatives, or for incidential expenses in connection with business trips, or in the event of an unforeseen emergency. These travel permits may be obtained at Customs Offices at ports of exit from Canada.

Canadians Resident in U. S. A.

Canadians who were permanent residents of the United States on September 16th, 1939, when the Foreign Exchange Control Regulations came into force, are usually regarded as non-residents of Canada by the Control Board. As such their Canadian-dollar bank balances in Canada are withdrawable in Canadian funds only and U. S. funds would not be furnished at the Board's official rates. As is the case with other non-residents, income from Canadian sources such as bank interest, interest and dividends on Canadian securities, net salaries earned in Canada, and net rentals on property owned in Canada, may be remitted to them in U. S. funds.

United States Citizens

United States citizens who are not permanent residents of Canada are not subject to any restrictions and may enter or leave Canada freely, except that they may not take more money out of Canada than they brought in.

THE ROYAL CANADIAN NAVY

Among the navies of world powers, Canada's sea force is not large, but its rate of expansion has no parallel. Since the outbreak of war its manpower has been multiplied 20 times to more than 36,000, and its ships, 30 times to more than 300. By April, 1943, the Navy will have a strength of 44,000 men and 500 ships. More than 1,100 Canadians are serving in ships of the Royal Navy.

In the current year (1942) the estimated cost of the Navy's operations is $260,000,000, equal to the total spent in the previous two and a half years of war.

The task of the Navy is threefold: to guard the Canadian coasts, to seek out and attack the enemy, and to escort convoys of cargo ships and troop transports.

The most notable service of the Canadian Navy has been in convoying. Between the outbreak of war and November, 1942, it has convoyed more than 11,000 ships. Its duties have been further increased by the westward extension of U-boat operations into Canada's home waters.

U-boat attacks have, in fact, been carried into Canada's inland waterways. Merchant vessels have been sunk by torpedoes in the St. Lawrence River. Enemy vessels have shelled Vancouver Island on Canada's West Coast.

Ships of the R.C.N. have collaborated in the North and West African expeditions and with the United States forces in the Pacific near the Aleutian Islands.

The Women's Royal Canadian Naval Service will total 4,000 as rapidly as training facilities permit.

THE CANADIAN ARMY

The Dominion of Canada is developing an Army overseas which for its size will be the most heavily armoured and hardest hitting force in the world.

Army expenditures this year will total $1,000,000,000.

At home, since the outbreak of war with Japan, Canada has been increasingly concerned with the defence of her territory. The East and West Coast areas have been placed under two commands. The air, sea and land services in these areas have been placed under the single command of the senior officer in the territory.

To give mobile reserve support for existing and projected defences on the Atlantic and Pacific coasts, the 7th and 8th divisions are being mobilized. The Reserve Army of more than 130,000 is being revitalized to strengthen home defences.

The Active Army now numbers more than 320,000, over 180,000 of whom are overseas. The Army in Britain is being reinforced by a steady stream of new contingents to bring it up to projected strength of three infantry divisions and two armoured divisions, in addition to two Army tank brigades and thousands of auxilliary troops and reinforcements.

The Canadian Women's Army Corps had a strength in November, 1942, of over 6,500. There are training establishments at Vermilion, Alta., St. Anne de Bellevue, Que. and Kitchener, Ont.

THE ROYAL CANADIAN AIR FORCE

In November 1942, there were more than 125,000 in the R.C.A.F., approximately one-half of this number being engaged in the British Commonwealth Air Training Plan.

There are 25 R.C.A.F. squadrons in England with many others engaged in air defence, coastal patrol and convoy protection duty off the Atlantic and Pacific coasts of Canada.

Women's Division

The R.C.A.F. (Women's Division) has a strength (Nov. 1942) of over 7,500 and is rapidly increasing. Women are enlisted in more than 40 trades, releasing men for other duties.

Army Co-operation Wing

For the purpose of combined operations, headquarters of an Army Co-operation Wing of the R.C.A.F. has been established at the Canadian Army Headquarters in England.

NATIONAL WAR SERVICES REGULATIONS 1940 (RECRUITS)

(CONSOLIDATION 1942)

DEPARTMENT OF NATIONAL WAR SERVICES

Among the more important provisions of these Regulations the following are summarized:—

4. Every male British subject residing in Canada, while he is of the ages of 19 to 45 inclusive, and who on July 15, 1940, was unmarried or a widower without child or children, shall be liable, during the war, to military training, as may be determined from time to time provided that men who prior to being notified to report for military training, shall have attained the age of 46, shall not be liable to be called out.

No non-declarant alien, who is a national of Belgium, Czechoslovakia, the Netherlands, Norway, Poland, the United States of America, Yugoslavia, or any other country which is a "foreign power" within the meaning of that expression as defined in the Foreign Forces Order, 1941, shall be liable to undergo or perform military training, service or duty after he files with the Divisional Registrar of the Administrative Division in which he resides satisfactory evidence that he has become a member of the armed forces of the state of which he is a national.

No non-declarant alien who is a national of any country other than those enumerated and described above shall be liable to undergo or perform military training, service or duty if, prior to the date upon which he is required to report for military training, he has completed a statutory declaration and has filed the same with the Divisional Registrar of the Administrative Division in which he resides.

The men who are liable to be called out shall be classified in separate yearly age classes of 19 years to 45 years inclusive. The age class shall be termed that of the year in which man is born.

5. The Governor in Council may by proclamation call out men who shall then report as prescribed when notified by the Divisional Registrar.

6. Certain exemptions list Judges, Clergy, members of Active Services, Police, Fire Brigades, Wardens and inmates of Institutions, etc.

14. (1941) This provides for postponement of training in the case of certain seasonal and essential occupations.

17. Special arrangements may be made as to students of universities and colleges who are receiving the equivalent of military training, or as to postponement of military training until the end of the scholastic year or session.

POSTPONEMENT.

Under certain conditions postponement of training may be granted to key men in industry. Applications for a postponement order may be made only by the employee but may be supported by any employer on behalf of any employee deemed by the employer to be a keyman, i.e., one whose occupation may not for the time being be interrupted without causing serious loss of effectiveness. The Board also has the power to grant an advancement or postponement order "in the national interest."

ROYAL CANADIAN ARMY CADETS

Colonel-in-Chief: His Majesty the King

Director—Colonel C. G. M. Grier, E.D., M.A.

Address—Central Chambers, Ottawa, Ontario.

The Army Cadet organization had its beginnings in the formation of School Cadet Corps during and after the Civil War, 1861—1866. Such Corps were first authorized by an Amendment to the Militia Act, dated 9th June 1862.

In 1942, the Department of National Defence completed plans to expand the Cadet Movement, regularize the training and, where desirable, to associate cadets with the Reserve Army.

Cadets will receive a realistic pre-military training. In addition, greater emphasis will be placed on the development of better physique and in the study of the future obligations of Cadets as citizens.

CANADIAN WOMEN'S ARMY CORPS

Application forms to enlist in the above may be obtained from Army District Headquarters or Director of Mobilization, Dept. of National War Services, Ottawa.

V.A.D. (Voluntary Aid Detachments)

She then may apply for service in Dept. of National Defence Hospitals, Dept. Pensions and National Health Hospitals or civilian hospitals.

In order to create a reserve list of young women already trained and certificated for those who do not immediately enter hospitals for full time duty, there has been established a short course of hospital training in civilian hospitals. The Canadian Red Cross Society, the Canadian Nurses Association, Canadian Hospital Council and the St. John Ambulance Association have prepared a syllabus of 80 hours training and also for those who have completed their training and wish to go further another syllabus for 240 hours training.

A.R.P. WORK IN CANADA

The Federal Control of Air Raid Precautions in Canada is vested in the Minister of Pensions and National Health, the Honourable Ian Mackenzie, K.C., M.P.

On January 1st, 1942, Mr. Mackenzie appointed Honourable R. J. Manion, M.C., M.D., as Director of Air Raid Precautions for Canada.

Doctor Manion has a staff in the Daly Building at Ottawa and acts as an adviser to the Provincial Organizations in the Provinces which have been declared liable to attack, namely, British Columbia, Ontario, Quebec, Nova Scotia, New Brunswick and Prince Edward Island.

The Provincial Organizations pass on, not only Doctor Manion's, but their own advice to the Municipalities and urge each locality to organize. In addition to advice and direction, the office of the Federal Director, on behalf of the Government, supplies a great deal of equipment to the Provincial Organizations who distribute it to the Municipalities. The equipment consists of such materials as fire-fighting pumpers and hose of various sizes, stirrup pumps, steel helmets, arm bands, medical supplies, air raid warning sirens, and many other lines of material, in addition to which the Federal Government assists the Provincial and Municipal Governments financially.

Up to the end of 1942 about $5,000,000.00 had been spent in various ways by the Federal Government and about three or four million dollars worth more of equipment is on order. An Order-in-Council was passed by the Federal Government recently, elaborating compensation paid to A.R.P. workers under which, in case of death or injury of an A.R.P. worker, either he or his family can be pensioned through the Board of Pension commissioners for Canada, the rates of pension being comparable to those given to men on active service.
